UNDP-GEF Midterm Review Terms of Reference

1. INTRODUCTION

This is the Terms of Reference (ToR) for the UNDP-GEF Midterm Review (MTR) of the medium-sized project titled Fiji Renewable Energy Power Project, FREPP (PIMS# 4358) implemented through the Fiji Department of Energy (DoE), Ministry of Infrastructure & Transport which is to be undertaken on 15th June 2015. The project started on the 28th December 2011 and is in its fourth year of implementation. In line with the UNDP-GEF Guidance on MTRs, this MTR process was initiated before the submission of the third Project Implementation Report (PIR). This ToR sets out the expectations for this MTR. The MTR process must follow the guidance outlined in the document Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects.

2. PROJECT BACKGROUND INFORMATION

The project was designed to: focuses on the removal of barriers (policy, regulatory, market, finance, and technical) to the wide-scale use of RE resources for grid-connected power generation in Fiji. It is in line with the GEF-4 Strategic Program 3 on promoting market approaches for the supply of renewable electricity in utility scale grid-based power systems; and Strategic Program 4, on promoting sustainable energy production from biomass and modern uses of biomass. The proposed project consists of 4 main components, each addressing specific categories of barriers, and these are: (1) Energy Policy & Regulatory Frameworks; (2) RE Resource Assessments and RE-based Project Assessments; (3) RE-based Power Generation Demonstrations; and, (4) RE Institutional Strengthening. FREPP is expected to facilitate investments in RE-based power generation in Fiji, which will not only support the socio-economic development of the country, make use of the country's RE resources and reduced GHG emissions. The following corresponding outcomes would be realized through a set inter-related outputs:

- Outcome 1: Facilitation of investments on energy projects, particularly on RE and biomass based power generation;
- Outcome 2: Technical feasibility of harnessing RE resources are ascertained and made widely known;
- Outcome 3: Markets for specific renewable energy technologies are supported; and
- Outcome 4: RE developments integrated into National Energy Plan towards 100% Electrification of Fiji.

The project was initially designed for a three-year timeframe and expected to complete on 28th December 2014. However, due to reasons beyond the control of UNDP nor the project management unit (PMU), UNDP agreed to an 18-month extension in July 2014. The new project completion date is 28th June 2016. It must be noted that the establishment of the PMU was delayed eight months after project endorsement. Also, the review of the Fiji National Energy Policy which is the criteria for majority of project activities was delayed by twelve months after project endorsement. At the time of design, the total project budget was estimated at US$17,528,673 comprising US$975,000 from UNDP/GEF resources, US$1,553,673 from government co-financing, and US$15,000,000 as co-financing from the demonstration project (Vara Renewable Energy, VRE). Whilst resources from UNDP/GEF and government co-financing are being fulfilled, the same cannot be said of VRE and as such its engagement
was terminated in second quarter 2013. The government and UNDP have identified an alternative demonstration project which is awaiting official endorsement.

The PMU is located within the DoE office and consists of the Coordinator and an Assistant. The PMU oversees the day-to-day functions of the project and reports directly to the Director of DoE, who is the Executive of the Project Board and makes management decisions in partnership with the Senior Beneficiary (a representative from the National Planning Office) and the Senior Supplier (UNDP).

3. OBJECTIVES OF THE MTR

The MTR will assess progress towards the achievement of the project objectives and outcomes as specified in the Project Document, and assess early signs of project success or failure with the goal of identifying the necessary changes to be made in order to set the project on-track to achieve its intended results. The MTR will also review the project’s strategy, its risks to sustainability.

4. MTR APPROACH & METHODOLOGY

The MTR must provide evidence based information that is credible, reliable and useful. The MTR team will review all relevant sources of information including documents prepared during the preparation phase (i.e. PIF, UNDP Initiation Plan, UNDP Environmental & Social Safeguard Policy, the Project Document, project reports including Annual Project Review/PIRs, project budget revisions, lesson learned reports, national strategic and legal documents, and any other materials that the team considers useful for this evidence-based review). The MTR team will review the baseline GEF focal area Tracking Tool submitted to the GEF at CEO endorsement, and the midterm GEF focal area Tracking Tool that must be completed before the MTR field mission begins.

The MTR team is expected to follow a collaborative and participatory approach1 ensuring close engagement with the Project Team, government counterparts (the GEF Operational Focal Point), the UNDP Country Office(s), UNDP-GEF Regional Technical Advisers, and other key stakeholders.

Engagement of stakeholders is vital to a successful MTR.2 Stakeholder involvement should include interviews with stakeholders who have project responsibilities, including but not limited to executing agencies, senior officials and task team/component leaders, key experts and consultants in the subject area, Project Board, project stakeholders, academia, local government and CSOs, etc. Additionally, the MTR team is expected to conduct field missions to Koro, Labasa, Ba including the following project sites Koro Biofuel, Nacamaki Village; FSC 10MW Combined Heat and Power Plant, Labasa; and Bukuya Hydro Project.

The final MTR report should describe the full MTR approach taken and the rationale for the approach making explicit the underlying assumptions, challenges, strengths and weaknesses about the methods and approach of the review.

5. DETAILED SCOPE OF THE MTR

The MTR team will assess the following four categories of project progress. See the Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects for extended descriptions.

i. Project Strategy

1 For ideas on innovative and participatory Monitoring and Evaluation strategies and techniques, see UNDP Discussion Paper: Innovations in Monitoring & Evaluating Results, 05 Nov 2013.
2 For more stakeholder engagement in the M&E process, see the UNDP Handbook on Planning, Monitoring and Evaluating for Development Results, Chapter 3, pg. 93.
Project design:
- Review the problem addressed by the project and the underlying assumptions. Review the effect of any incorrect assumptions or changes to the context to achieving the project results as outlined in the Project Document.
- Review the relevance of the project strategy and assess whether it provides the most effective route towards expected/intended results. Were lessons from other relevant projects properly incorporated into the project design?
- Review how the project addresses country priorities. Review country ownership. Was the project concept in line with the national sector development priorities and plans of the country (or of participating countries in the case of multi-country projects)?
- Review decision-making processes: were perspectives of those who would be affected by project decisions, those who could affect the outcomes, and those who could contribute information or other resources to the process, taken into account during project design processes?
- Review the extent to which relevant gender issues were raised in the project design. See Annex 9 of Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects for further guidelines.
- If there are major areas of concern, recommend areas for improvement.

Results Framework/Logframe:
- Undertake a critical analysis of the project’s logframe indicators and targets, assess how “SMART” (Specific, Measurable, Attainable, Relevant, Time-bound) the indicators are, and suggest specific amendments/revisions to the indicators as necessary. In case the indicators are suggested to be amended/revised, provide the relevant targets.
- Carry out an analysis of the project’s annual targets, assess whether the targets around the time of the MTR have been achieved or not. In case new indicators (new or amended/revised) suggest also the annual targets for these as necessary.
- Are the project’s objectives and outcomes or components clear, practical, and feasible within its time frame?
- Examine if progress so far has led to, or could in the future catalyse beneficial development effects (i.e. income generation, gender equality and women’s empowerment, improved governance etc...) that should be included in the project results framework and monitored on an annual basis.
- Ensure broader development and gender aspects of the project are being monitored effectively. Develop and recommend SMART ‘development’ indicators, including sex-disaggregated indicators and indicators that capture development benefits.

ii. Progress Towards Results

Progress Towards Outcomes Analysis:
- Review the logframe indicators against progress made towards the end-of-project targets using the Progress Towards Results Matrix and following the Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects; colour code progress in a “traffic light system” based on the level of progress achieved; assign a rating on progress for each outcome; make recommendations from the areas marked as “Not on target to be achieved” (red).
Table. Progress Towards Results Matrix (Achievement of outcomes against End-of-project Targets)

</tbody>
</table>

Indicator Assessment Key

- Green = Achieved
- Yellow = On target to be achieved
- Red = Not on target to be achieved

In addition to the progress towards outcomes analysis:

- Compare and analyse the GEF Tracking Tool at the Baseline with the one completed right before the Midterm Review.
- Identify remaining barriers to achieving the project objective in the remainder of the project.
- By reviewing the aspects of the project that have already been successful, identify ways in which the project can further expand these benefits.

iii. Project Implementation and Adaptive Management

Management Arrangements:

- Review overall effectiveness of project management as outlined in the Project Document. Have changes been made and are they effective? Are responsibilities and reporting lines clear? Is decision-making transparent and undertaken in a timely manner? Recommend areas for improvement.
- Review the quality of execution of the Executing Agency/Implementing Partner(s) and recommend areas for improvement.
- Review the quality of support provided by the GEF Partner Agency (UNDP) and recommend areas for improvement.

Work Planning:

- Review any delays in project start-up and implementation, identify the causes and examine if they have been resolved.
- Are work-planning processes results-based? If not, suggest ways to re-orientate work planning to focus on results?
- Examine the use of the project’s results framework/logframe as a management tool and review any changes made to it since project start.

Finance and co-finance:

- Consider the financial management of the project, with specific reference to the cost-effectiveness of interventions.

³ Populate with data from the Logframe and scorecards
⁴ Populate with data from the Project Document
⁵ If available
⁶ Colour code this column only
⁷ Use the 6 point Progress Towards Results Rating Scale: HS, S, MS, MU, U, HU
• Review the changes to fund allocations as a result of budget revisions and assess the appropriateness and relevance of such revisions.
• Does the project have the appropriate financial controls, including reporting and planning, that allow management to make informed decisions regarding the budget and allow for timely flow of funds?
• Informed by the co-financing monitoring table to be filled out, provide commentary on co-financing: is co-financing being used strategically to help the objectives of the project? Is the Project Team meeting with all co-financing partners regularly in order to align financing priorities and annual work plans?

Project-level Monitoring and Evaluation Systems:
• Review the monitoring tools currently being used: Do they provide the necessary information? Do they involve key partners? Are they aligned or mainstreamed with national systems? Do they use existing information? Are they efficient? Are they cost-effective? Are additional tools required? How could they be made more participatory and inclusive?
• Examine the financial management of the project monitoring and evaluation budget. Are sufficient resources being allocated to monitoring and evaluation? Are these resources being allocated effectively?

Stakeholder Engagement:
• Project management: Has the project developed and leveraged the necessary and appropriate partnerships with direct and tangential stakeholders?
• Participation and country-driven processes: Do local and national government stakeholders support the objectives of the project? Do they continue to have an active role in project decision-making that supports efficient and effective project implementation?
• Participation and public awareness: To what extent has stakeholder involvement and public awareness contributed to the progress towards achievement of project objectives?

Reporting:
• Assess how adaptive management changes have been reported by the project management and shared with the Project Board.
• Assess how well the Project Team and partners undertake and fulfil GEF reporting requirements (i.e. how have they addressed poorly-rated PIRs, if applicable?)
• Assess how lessons derived from the adaptive management process have been documented, shared with key partners and internalized by partners.

Communications:
• Review internal project communication with stakeholders: Is communication regular and effective? Are there key stakeholders left out of communication? Are there feedback mechanisms when communication is received? Does this communication with stakeholders contribute to their awareness of project outcomes and activities and investment in the sustainability of project results?
• Review external project communication: Are proper means of communication established or being established to express the project progress and intended impact to the public (is there a web presence, for example? Or did the project implement appropriate outreach and public awareness campaigns?)
• For reporting purposes, write one half-page paragraph that summarizes the project’s progress towards results in terms of contribution to sustainable development benefits, as well as global environmental benefits.
iv. Sustainability

- Validate whether the risks identified in the Project Document, Annual Project Review/PIRs and the ATLAS Risk Management Module are the most important and whether the risk ratings applied are appropriate and up to date. If not, explain why.
- In addition, assess the following risks to sustainability:

**Financial risks to sustainability:**
- What is the likelihood of financial and economic resources not being available once the GEF assistance ends (consider potential resources can be from multiple sources, such as the public and private sectors, income generating activities, and other funding that will be adequate financial resources for sustaining project’s outcomes)?

**Socio-economic risks to sustainability:**
- Are there any social or political risks that may jeopardize sustainability of project outcomes? What is the risk that the level of stakeholder ownership (including ownership by governments and other key stakeholders) will be insufficient to allow for the project outcomes/benefits to be sustained? Do the various key stakeholders see that it is in their interest that the project benefits continue to flow? Is there sufficient public / stakeholder awareness in support of the long term objectives of the project? Are lessons learned being documented by the Project Team on a continual basis and shared/transferred to appropriate parties who could learn from the project and potentially replicate and/or scale it in the future?

**Institutional Framework and Governance risks to sustainability:**
- Do the legal frameworks, policies, governance structures and processes pose risks that may jeopardize sustenance of project benefits? While assessing this parameter, also consider if the required systems/mechanisms for accountability, transparency, and technical knowledge transfer are in place.

**Environmental risks to sustainability:**
- Are there any environmental risks that may jeopardize sustenance of project outcomes?

**Conclusions & Recommendations**

The MTR team will include a section of the report setting out the MTR’s evidence-based conclusions, in light of the findings.\(^8\)

Recommendations should be succinct suggestions for critical intervention that are specific, measurable, achievable, and relevant. If the suggestion is a process, the steps to carry it should be presented. A recommendation table should be put in the report’s executive summary. See the Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects for guidance on a recommendation table.

**Ratings**

The MTR team will include its ratings of the project’s results and brief descriptions of the associated achievements in a MTR Ratings & Achievement Summary Table in the Executive Summary of the MTR report. See Annex E for ratings scales. No rating on Project Strategy and no overall project rating is required.

---

\(^8\) Alternatively, MTR conclusions may be integrated into the body of the report.

#### 6. TIMEFRAME

The total duration of the MTR will be approximately eight weeks starting 20th August 2015, and shall not exceed five months from when the consultants are hired. The tentative MTR timeframe is as follows:

<table>
<thead>
<tr>
<th>TIMEFRAME</th>
<th>ACTIVITY</th>
</tr>
</thead>
<tbody>
<tr>
<td>6th August 2015</td>
<td>Application closes</td>
</tr>
<tr>
<td>13th August 2015</td>
<td>Select MTR Team</td>
</tr>
<tr>

<tr>
<td>4</td>
<td>Final Report*</td>
<td>Revised report with audit trail detailing how all received comments have (and have not) been addressed in the final MTR report</td>
<td>Within 1 week of receiving UNDP comments on draft</td>
<td>Sent to the Commissioning Unit</td>
</tr>
</tbody>
</table>

*The final MTR report must be in English. If applicable, the Commissioning Unit may choose to arrange for a translation of the report into a language more widely shared by national stakeholders.

8. MTR ARRANGEMENTS

The principal responsibility for managing this MTR resides with the Commissioning Unit. The Commissioning Unit for this project’s MTR is the UNDP Fiji Multi-Country Office.

The commissioning unit will contract the consultants and ensure the timely provision of per diems and travel arrangements within Fiji for the MTR team. The Project Team will be responsible for liaising with the MTR team to provide all relevant documents, set up stakeholder interviews, and arrange field visits.

9. TEAM COMPOSITION

A team of two independent consultants will conduct the MTR - one team leader (the international consultant with experience and exposure to projects and evaluations in other regions globally) and one team expert, usually from the country of the project (national consultant). The consultants cannot have participated in the project preparation, formulation, and/or implementation (including the writing of the Project Document) and should not have a conflict of interest with project’s related activities.

The team leader and team expert shall be engaged jointly to undertake the mid-term review working concurrently according to a planned schedule. The Team Leader will have the overall responsibility of organizing and completing the review, submitting the final report as well as supervising the local consultant. The Team Leader is expected to propose a work plan, budget and timelines to achieve the expected outputs with the appropriate methodology.

The selection of consultants will be aimed at maximizing the overall “team” qualities in the following areas:

Team Leader: International Consultant

- Recent completed and satisfactory work on result-based management project evaluation (10%);
• Proven experience in developing and assessing the realization of SMART indicators (10%);
• Proven experience in the evaluation/validation and development of baseline scenarios (10%);
• Proven experience in working on GEF project design or GEF project evaluations (10%);
• Tracked record of work on development projects in Fiji, the Pacific region, and/or small island developing states (16%);
• Work experience in renewable energy for at least 10 years (8%);
• Demonstrated understanding of issues related to gender and climate change mitigation; experience in gender sensitive evaluation and analysis (8%).
• Excellent communication skills (8%);
• Project evaluation/review experiences within United Nations system will be considered an asset (10%);
• A University degree in climate change mitigation in particular renewable energy, or other closely related field (10%).

Team Expert: Local Consultant
• Knowledgeable and experienced in facilitating participatory monitoring and evaluation processes (10%);
• Well established networks and relations with local, district, community and national stakeholders (10%);
• Academic and/or professional background in renewable energy projects or related fields with experience in renewable energy, with in-depth understanding of energy issues (in Fiji). A minimum of 5 years of working experience is required (15%);
• Familiarity with renewable energy approaches in Fiji and Pacific either through management and/or implementation or through consultancies in evaluation of related renewable energy projects. Understanding of local actions contributing to global benefits is crucial (15%);
• Previous experience as a consultant and/or team of consultants evaluating national, community based and regional projects. Proven experience to work in multi disciplinary and national teams, and deliver quality reports within the given time (16%);
• Ability to deliver quality products in technical evaluation of technical assistance projects (individual and/or as part of a team) (10%);
• Excellent English writing and communication skills; demonstrated ability to assess complex situations in order to succinctly and clearly distill critical issues and draw forward-looking conclusions (8%);
• Ability to converse, communicate in local language/dialects and understanding of customary protocols (8%); and
• Must be a citizen of Fiji (8%).

10. PAYMENT MODALITIES AND SPECIFICATIONS

10% of payment upon approval of the final MTR Inception Report.
30% upon submission of the draft MTR report.
60% upon finalization of the MTR report.

Or, as otherwise agreed between the UNDP Fiji Multi-Country Office and the MTR team.
11. APPLICATION PROCESS

Recommended Presentation of Proposal:

a) **Letter of Confirmation of Interest and Availability** using the [template](#) provided by UNDP;
b) **CV** and a **Personal History Form (P11 form)**;
c) **Brief description of approach to work/technical proposal** of why the individual considers him/herself as the most suitable for the assignment, and a proposed methodology on how they will approach and complete the assignment; (max 1 page)
d) **Financial Proposal** that indicates the all-inclusive fixed total contract price and all other travel related costs (such as flight ticket, per diem, etc), supported by a breakdown of costs, as per template attached to the Letter of Confirmation of Interest template. If an applicant is employed by an organization/company/institution, and he/she expects his/her employer to charge a management fee in the process of releasing him/her to UNDP under Reimbursable Loan Agreement (RLA), the applicant must indicate at this point, and ensure that all such costs are duly incorporated in the financial proposal submitted to UNDP.

All application materials should be submitted to the address (the Resident Representative, UNDP Fiji Multi-Country Office, Level 8, Kadavu House, Victoria Parade, Suva, Fiji) in a sealed envelope indicating the following reference “Consultant for FREPP Midterm Review” or by email at the following address ONLY: procurement.fj@undp.org, emma.mario@undp.org by **2:00pm on 6th August 2015 (Fiji time)**. Incomplete applications will be excluded from further consideration.

**Criteria for Evaluation of Proposal:** Only those applications which are responsive and compliant will be evaluated. Offers will be evaluated according to the Combined Scoring method – where the educational background and experience on similar assignments will be weighted at 70% and the price proposal will weigh as 30% of the total scoring. The applicant receiving the Highest Combined Score that has also accepted UNDP’s General Terms and Conditions will be awarded the contract.

**ToR ANNEX A: List of Documents to be reviewed by the MTR Team**

1. PIF
2. UNDP Initiation Plan
3. UNDP Project Document
4. UNDP Environmental and Social Screening results
5. Project Inception Report
6. All Project Implementation Reports (PIR’s)
7. Quarterly progress reports and work plans of the various implementation task teams
8. Audit reports
9. Finalized GEF focal area Tracking Tools at CEO endorsement and midterm tracking tool for climate change mitigation projects
10. Oversight mission reports
11. All monitoring reports prepared by the project
12. Financial and Administration guidelines used by Project Team

The following documents will also be available:

13. Project operational guidelines, manuals and systems
14. UNDP country/countries programme document(s)

---

9 Engagement of the consultants should be done in line with guidelines for hiring consultants in the POPP: [https://info.undp.org/global/popp/Pages/default.aspx](https://info.undp.org/global/popp/Pages/default.aspx)

15. Minutes of the FREPP Board Meetings and other meetings (i.e. Project Appraisal Committee meetings)
16. Project site location maps

ToR ANNEX B: Guidelines on Contents for the Midterm Review Report

i. Basic Report Information (for opening page or title page)
   - Title of UNDP supported GEF financed project
   - UNDP PIMS# and GEF project ID#
   - MTR time frame and date of MTR report
   - Region and countries included in the project
   - GEF Operational Focal Area/Strategic Program
   - Executing Agency/Implementing Partner and other project partners
   - MTR team members
   - Acknowledgements

ii. Table of Contents

iii. Acronyms and Abbreviations

1. Executive Summary (3-5 pages)
   - Project Information Table
   - Project Description (brief)
   - Project Progress Summary (between 200-500 words)
   - MTR Ratings & Achievement Summary Table
   - Concise summary of conclusions
   - Recommendation Summary Table

2. Introduction (2-3 pages)
   - Purpose of the MTR and objectives
   - Scope & Methodology: principles of design and execution of the MTR, MTR approach and data collection methods, limitations to the MTR
   - Structure of the MTR report

3. Project Description and Background Context (3-5 pages)
   - Development context: environmental, socio-economic, institutional, and policy factors relevant to the project objective and scope
   - Problems that the project sought to address: threats and barriers targeted
   - Project Description and Strategy: objective, outcomes and expected results, description of field sites (if any)
   - Project Implementation Arrangements: short description of the Project Board, key implementing partner arrangements, etc.
   - Project timing and milestones
   - Main stakeholders: summary list

4. Findings (12-14 pages)
   4.1 Project Strategy
      - Project Design
      - Results Framework/Logframe
   4.2 Progress Towards Results
      - Progress towards outcomes analysis
      - Remaining barriers to achieving the project objective
   4.3 Project Implementation and Adaptive Management
      - Management Arrangements
      - Work planning
      - Finance and co-finance
      - Project-level monitoring and evaluation systems

12 The Report length should not exceed 40 pages in total (not including annexes).
4.4 Sustainability
- Financial risks to sustainability
- Socio-economic to sustainability
- Institutional framework and governance risks to sustainability
- Environmental risks to sustainability

5. Conclusions and Recommendations (4-6 pages)

5.1 Conclusions
- Comprehensive and balanced statements (that are evidence-based and connected to the MTR’s findings) which highlight the strengths, weaknesses and results of the project

5.2 Recommendations
- Corrective actions for the design, implementation, monitoring and evaluation of the project
- Actions to follow up or reinforce initial benefits from the project
- Proposals for future directions underlining main objectives

6. Annexes
- MTR ToR (excluding ToR annexes)
- MTR evaluative matrix (evaluation criteria with key questions, indicators, sources of data, and methodology)
- Example Questionnaire or Interview Guide used for data collection
- Ratings Scales
- MTR mission itinerary
- List of persons interviewed
- List of documents reviewed
- Co-financing table (if not previously included in the body of the report)
- Signed UNEG Code of Conduct form
- Signed MTR final report clearance form
- Annexed in a separate file: Audit trail from received comments on draft MTR report
- Annexed in a separate file: Relevant midterm tracking tools for climate change mitigation projects

ToR ANNEX C: Midterm Review Evaluative Matrix Template

<table>
<thead>
<tr>
<th>Evaluative Questions</th>
<th>Indicators</th>
<th>Sources</th>
<th>Methodology</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Strategy: To what extent is the project strategy relevant to country priorities, country ownership, and the best route towards expected results?</td>
<td>(include evaluative question(s))</td>
<td>(i.e. relationships established, level of coherence between project design and implementation approach, specific activities conducted, quality of risk mitigation strategies, etc.)</td>
<td>(i.e. project documents, national policies or strategies, websites, project staff, project partners, data collected throughout the MTR mission, etc.)</td>
</tr>
</tbody>
</table>

Progress Towards Results: To what extent have the expected outcomes and objectives of the project been achieved thus far?

Project Implementation and Adaptive Management: Has the project been implemented efficiently, cost-effectively, and been able to adapt to any changing conditions thus far? To what extent are project-level monitoring and evaluation systems, reporting, and project communications supporting the project’s
| Sustainability: To what extent are there financial, institutional, socio-economic, and/or environmental risks to sustaining long-term project results? |
|------------------|-----------------|-----------------|-----------------|
|                  |                 |                 |                 |
ToR ANNEX D: UNEG Code of Conduct for Evaluators/Midterm Review Consultants

**Evaluators/Consultants:**
1. Must present information that is complete and fair in its assessment of strengths and weaknesses so that decisions or actions taken are well founded.
2. Must disclose the full set of evaluation findings along with information on their limitations and have this accessible to all affected by the evaluation with expressed legal rights to receive results.
3. Should protect the anonymity and confidentiality of individual informants. They should provide maximum notice, minimize demands on time, and respect people’s right not to engage. Evaluators must respect people’s right to provide information in confidence, and must ensure that sensitive information cannot be traced to its source. Evaluators are not expected to evaluate individuals, and must balance an evaluation of management functions with this general principle.
4. Sometimes uncover evidence of wrongdoing while conducting evaluations. Such cases must be reported discreetly to the appropriate investigative body. Evaluators should consult with other relevant oversight entities when there is any doubt about if and how issues should be reported.
5. Should be sensitive to beliefs, manners and customs and act with integrity and honesty in their relations with all stakeholders. In line with the UN Universal Declaration of Human Rights, evaluators must be sensitive to and address issues of discrimination and gender equality. They should avoid offending the dignity and self-respect of those persons with whom they come in contact in the course of the evaluation. Knowing that evaluation might negatively affect the interests of some stakeholders, evaluators should conduct the evaluation and communicate its purpose and results in a way that clearly respects the stakeholders’ dignity and self-worth.
6. Are responsible for their performance and their product(s). They are responsible for the clear, accurate and fair written and/or oral presentation of study limitations, findings and recommendations.
7. Should reflect sound accounting procedures and be prudent in using the resources of the evaluation.

**MTR Consultant Agreement Form**

Agreement to abide by the Code of Conduct for Evaluation in the UN System:

Name of Consultant: ________________________________________________________________

Name of Consultancy Organization (where relevant): __________________________________________

I confirm that I have received and understood and will abide by the United Nations Code of Conduct for Evaluation.

Signed at ___________________________ (Place) on ___________________________ (Date)

Signature: ___________________________
ToR ANNEX E: MTR Ratings

| Ratings for Progress Towards Results: (one rating for each outcome and for the objective) |
|----------------------------------|-------------------------------|
| 6 Highly Satisfactory (HS)       | The objective/outcome is expected to achieve or exceed all its end-of-project targets, without major shortcomings. The progress towards the objective/outcome can be presented as “good practice”. |
| 5 Satisfactory (S)               | The objective/outcome is expected to achieve most of its end-of-project targets, with only minor shortcomings. |
| 4 Moderately Satisfactory (MS)   | The objective/outcome is expected to achieve most of its end-of-project targets but with significant shortcomings. |
| 3 Moderately Unsatisfactory (HU) | The objective/outcome is expected to achieve its end-of-project targets with major shortcomings. |
| 2 Unsatisfactory (U)             | The objective/outcome is expected not to achieve most of its end-of-project targets. |
| 1 Highly Unsatisfactory (HU)     | The objective/outcome has failed to achieve its midterm targets, and is not expected to achieve any of its end-of-project targets. |

| Ratings for Project Implementation & Adaptive Management: (one overall rating) |
|----------------------------------|-------------------------------|
| 6 Highly Satisfactory (HS)       | Implementation of all seven components – management arrangements, work planning, finance and co-finance, project-level monitoring and evaluation systems, stakeholder engagement, reporting, and communications – is leading to efficient and effective project implementation and adaptive management. The project can be presented as “good practice”. |
| 5 Satisfactory (S)               | Implementation of most of the seven components is leading to efficient and effective project implementation and adaptive management except for only few that are subject to remedial action. |
| 4 Moderately Satisfactory (MS)   | Implementation of some of the seven components is leading to efficient and effective project implementation and adaptive management, with some components requiring remedial action. |
| 3 Moderately Unsatisfactory (MU) | Implementation of some of the seven components is not leading to efficient and effective project implementation and adaptive, with most components requiring remedial action. |
| 2 Unsatisfactory (U)             | Implementation of most of the seven components is not leading to efficient and effective project implementation and adaptive management. |
| 1 Highly Unsatisfactory (HU)     | Implementation of none of the seven components is leading to efficient and effective project implementation and adaptive management. |

| Ratings for Sustainability: (one overall rating) |
|----------------------------------|-------------------------------|
| 4 Likely (L)                    | Negligible risks to sustainability, with key outcomes on track to be achieved by the project’s closure and expected to continue into the foreseeable future |
| 3 Moderately Likely (ML)        | Moderate risks, but expectations that at least some outcomes will be sustained due to the progress towards results on outcomes at the Midterm Review |
| 2 Moderately Unlikely (MU)      | Significant risk that key outcomes will not carry on after project closure, although some outputs and activities should carry on |
| 1 Unlikely (U)                  | Severe risks that project outcomes as well as key outputs will not be sustained |

ToR ANNEX F: MTR Report Clearance Form
