

	outcomes spelt in the programme document and annual workplans? Evidence.		Documents reviews	
	What are the major achievements of the programme so far (on outcomes, outputs and targets)		Interviews FGDs with EDCs, Beneficiaries	Programme Performance Indicators
	Evidence of What achievements and How much can we attribute to EDP support and UNDO contribution?		Interviews Document Reviews	Programme Performance Indicators
	What are the potential areas of for potential success – (impact, sustainability and capacity development)		Interviews FGDs Documents reviews	
	How can this potential success be harnessed into actual success by the end of the programme		Interviews FGDs Documents reviews	Potential success
	What are the underlying factors – beyond the control of the programme – that influenced the outcomes or results of the programme		Interviews Documentation review	Risk Factors
	Any unplanned effects/results		Interviews FGDs Documents reviews	Windfalls
Youth Employment Network (YEN)	Was YEN E-platform is designed through consultative process with SNYC, MCIL and MWCSO? All SNYC staff trained and capacitated to operate YEN e-platform? YEN E-platform business-to-business functionality designed through consultative process with SNYC, MWCSO, MCIL and CoC?	ILO MWCSO UNV	Periodic M & E/ Review Reports Database	Number registered on YEN e-platform, disaggregated by gender, village, age and educational status. Number gained employment through the YEN e-platform Capacities established to operate YEN e-platform

	<p>Number of businesses engaged in regular business-to-business communication through YEN e-platform, over time.</p> <p>NYVS designed through consultative process with SNYC, MCIL and MWCSD?</p> <p>Is the NYVS fully developed and operational?</p> <p>State of functionality of the NYVS</p>			<p>effectively, without external assistance</p> <p>Qualifiers to existing indicators</p> <p>NYVS fully developed and operational?</p> <p>No. of youth registered on YVS</p> <p>No. of youth actually facilitated to undertake volunteer work over time</p>
Knowledge, skills and employment opportunities	<p><u>Agricultural value-chains</u></p> <p>Any formal accreditation of youth with skills, entrepreneurship and business development training to enable access to agri-business value chains.</p> <p>What are the jobs targeted for the youth</p> <p>Market access for produce</p> <p><u>'One Village One Product' approach to community-based tourism</u></p> <p>What entrepreneurship skills and knowledge generated for employment and expansion of livelihood-diversification options for youth</p>	<p>UNDP FAO</p> <p>ILO UNESCO UNDP SHA</p>		<p>No. youth formally accredited with skills, entrepreneurship and business development training to access to agri-business value chains</p> <p>Number, quality and type of jobs secured sustainably in agricultural value chains.</p> <p>Status of markets for produce</p> <p>No. of youth received formally accredited skills, entrepreneurship and business development for tourism</p> <p>No. of youth secured sustainable employment within community-based tourism and the community-based tourism value chain</p> <p>No. of youth applying the skills on their projects, how long, with what results?</p>

	<p><u>Creative industries and capacity development (skills and entrepreneurship knowledge) for sustainable employment opportunities for youth</u></p> <p>What capacity development has been undertaken for the youth, and with what results? Duration of specific activities, capacity development efforts.</p> <p><u>Youth employment opportunities created in climate change and disaster resilience initiatives arising from focus in design and operational strategies</u></p> <p>What specific actions have been taken to facilitate youth to access opportunities created through management of climate and disaster resilience initiatives? What have been the results in relation to the youth?</p>	<p>ILO UNESCO UNDP</p> <p>ILO</p>		<p>No. of youth with formally accredited entrepreneurship skills, business development training to enable sustainable income generation in creative industries vs target No. of youth secured sustainable employment within the creative industries sector vs target</p> <p>Proportion of new climate change and disaster resilience projects that have strategies and allocate funds to support gender-sensitive youth employment and the creation of green jobs for youth. Change in thrust over time?</p>
Micro Small Enterprises (MSEs)	<p><u>Establishment of a Youth Small Business Incubator scheme to provide youth entrepreneurs with continuous access to a comprehensive range of tailored business development services.</u></p> <p>What tailored business development support has been provided to strengthen the sustainability and potential for employment creation for the youth?(Quality and quantity)</p>	<p>UNDP ILO CoC</p>		<p>Number of youth-led (data disaggregated) micro-businesses strengthened through inputs from Small Business Incubator.</p> <p>Percentage increase in income generated from micro-business activity vs</p>

	<p>Is the Youth Small Business Incubator operating effectively and sustainably through PPP modality? What is the evidence for this?</p> <p><u>Policy development and facilitation for micro small business development</u></p> <p>Any new policies, regulatory frameworks, legislative measures developed or if existing ones have been reviewed as result of the YEP support?</p> <p>What youth empowerment measures (policy, regulatory and legislative) have been adopted by Government?</p>	MCIL, UNDP, ILO MWCSD, CoC		<p>within business incubation support.</p> <p>Small Business Incubator operating within a sustainable Public-Private Partnership modality. What are the indicators for the sustainability of PPP intervention and partnership?</p> <p>Gender-sensitive legal empowerment of youth within the informal economy incorporated into the strategic action points of the Samoa Youth Employment National Action Plan. Government/Cabinet formal approval or adoption of specific measures to empower the youth?</p> <p>Roadmap with policy and legislative amendments for the empowerment of the informal economy approved by Government.</p>

Efficiency of Implementation	Is the implementation management structure soundly designed to achieve the outputs, outcomes and targets set in the programme	UNDP, ILO, UNESCO, FAO, UNV, MWCSD, MAF, SNYC	Interviews FGDs Documents reviews	Implementation Management vs results
	What major factors affected programme delivery and what proposed appropriate interventions can address them for the remainder of the programme and for any future planned interventions in support of development effectiveness?		Interviews FGDs Documents reviews	Factors affecting the programme
	Was the monitoring and backstopping of the programme done as expected?		Interviews Documents Review	M&E
	How did the programme forge collaboration with the various stakeholders – industry associations		Interviews FGDs Documents reviews	Collaboration
	How effective is the programme in promoting inter-governmental collaboration, DLG, working with other UN Agencies, DPs and national delivery partners to deliver on the outcomes		Interviews FGDs Documents reviews	Collaboration
	Was the role of UNDP CO and its impact – positive or negative – explain the answer		Key informant Interviews Document Review	
Efficiency (Reference to all programme components)	Are the programme resources (financial, physical and manpower) adequate in terms of quality and quantity Was the PMU established in a timely manner? Has it been functioning effectively throughout the programme period?	UNDP, ILO, UNESCO, FAO, UNV, MWCSD, MAF, SNYC, SUNGO	Interviews FGDs Documents reviews	Resources allocation and availability
	Were the programme resources used effectively to produce planned results		Interviews FGDs	Effective use of resources

			Documents reviews	
	Were disbursement and programme expenditures in line with budgetary plans		Interviews Document reviews	Financial disbursement
	How cost effective was the programme compared to other similar programmes			Performance Indicators
	Any technological issues – suitability of such used Any unforeseen developments that need to be noted?		Interviews Documents reviews	Technology
	Accountability of the programme – evidence		Interviews Documents Review	Accountability for Finances Accountability for Results
Sustainability	Is there an exit strategy for the programme What does it entail?	UNDP, ILO, UNESCO, FAO, UNV, MWCSD, MAF, SNYC, SUNGO		
	Is the government taking steps to absorb some of the costs under the programme after project termination?		Interviews FGDs with Documents reviews	Resource allocations
	What should be done to strengthen sustainability of the programme – when the programme resources dry up.		Interviews Documents reviews	Sustainability
	Is the One-UN resource mobilization strategy for the programme appropriate and effective		Interviews Documents reviews	Resource Mobilisation
	What future potential interventions beyond the current ones would enhance and sustain the gains from this programme What additional measures are required to enhance sustainability?		Interviews FGDs with Documents reviews	Sustainability

ANNEX 3: PERSONS MET AND SCHEDULE OF MEETINGS HELD DURING THE MTE FIELD PHASE
