REQUEST FOR PROPOSAL FOR TERMINAL EVALUATION FOR STRENGTHENING THE IMPLEMENTATION OF THE NAGoya PROTOCOL ON ACCESS TO GENETIC RESOURCES AND BENEFIT SHARING IN THE COOK ISLANDS (ABS COOK ISLANDS) PROJECT

A. Project Title:

Strengthening the Implementation of the Nagoya Protocol on Access to Genetic Resources and Benefit Sharing in the Cook Islands

B. Project Description or Context and Background:

In accordance with UNDP and GEF M&E policies and procedures, all full and medium-sized UNDP support GEF financed projects are required to undergo a terminal evaluation upon completion of implementation. These terms of reference (TOR) sets out the expectations for the Terminal Evaluation (TE) of the medium size project Strengthening the Implementation of the Nagoya Protocol on Access to Genetic Resources and Benefit Sharing in the Cook Islands (PIMS No 5317). The GEF Implementing Agency (IA) for this project is the United Nations Development Programme. The Implementing Partner for this project is the Cook Islands National Environmental Services (NES).

The essentials of the project to be evaluated are as follows:

C. **Scope of Work:**

The primary objective of the project is to develop and implement a national Access and Benefit Sharing (ABS) legal framework, build national capacities and support an ABS Agreement based on Traditional Knowledge and a Public-Private Partnership.

The project aims to commercialize its genetic properties and benefit the Cook Islands, local communities and contribute to the implementation of customary biodiversity and sustainable use practices, known as *ra’ui*

This project has been implemented in three components.

1) strengthened national regulatory and institutional framework for ABS;

---

1 A traditional conservation practice where access to a particular resource or area is forbidden for a given period that is still being practiced in the Cook Islands. The *ra’ui* are promoted and supported by the Koutu Nui (sub-chiefs) and the Koutu Nui is responsible for the establishment of *ra’ui*. *Ra’ui* are locally managed by community members.
1.1 Nagoya Protocol ratified by Parliament
1.2 Strengthen National Regulatory and Institutional Framework on ABS
1.3 ABS Rules and Procedures developed
2) capacity building and awareness raising for the implementation of the National ABS Framework;
   2.1 Upgraded facilities and staff skills for bio-prospecting and TK documentation
   2.2 Improved technical capacity for implementing ABS activities
   2.3 Increased awareness of ABS and associated national regulatory and institutional framework among a wide range of stakeholders
3) bio-discovery and benefit-sharing agreement based on Traditional Knowledge on Bone and Cartilage Regeneration.
   3.1 A Stronger CIMTECH and Te Koutu Nui ABS Agreement regarding Cartilage and Bone Regeneration
   3.2 Application of improved extraction techniques to ‘Au’ (Hibiscus tiliaceus) to meet international standards
   3.3 Scale up production and undertake staff training to ensure analytical and laboratory capacities necessary to ensure consistent quality of the biologically active extract
   3.4 Sustainable management plan for collection of Hibiscus tiliaceus and improved conservation of its waterway habits

The TE will be conducted according to the guidance, rules and procedures established by UNDP and GEF as reflected in the UNDP Evaluation Guidance for GEF Financed Projects.

The objectives of the evaluation are to assess the achievement of project results, and to draw lessons that can both improve the sustainability of benefits from this project, and aid in the overall enhancement of UNDP programming.

**Evaluation Approach and Method:**

An overall approach and method for conducting project terminal evaluations of UNDP supported GEF financed projects has developed over time. The evaluator is expected to frame the evaluation effort using the criteria of relevance, effectiveness, efficiency, sustainability, and impact, as defined and explained in the
**UNDP Guidance for Conducting Terminal Evaluations of UNDP-supported, GEF-financed Projects**: A set of questions covering each of these criteria should be drafted using the Evaluation Question Matrix (see Annex A). The evaluator is expected to amend, complete and submit this matrix as part of an evaluation inception report, and shall include it as an annex to the final report.

The evaluation must provide evidence-based information that is credible, reliable and useful. The evaluator is expected to follow a participatory and consultative approach ensuring close engagement government counterparts, in particular the GEF focal point, UNDP Country Office, project team, UNDP GEF Technical Adviser based in the region and key stakeholders. The evaluator is expected to conduct a field mission to Cook Islands.

The evaluator will review all relevant sources of information, such as the project document, project reports – including Annual PIIs, project budget revisions, midterm review, progress reports, project files, national strategic and legal documents, and any other materials that the evaluator considers useful for this evidence-based assessment. A list of documents that the project team will provide to the evaluator for review is included in Annex B of this Terms of Reference.

Evaluation Criteria’s & Ratings

An assessment of project performance will be carried out, based against expectations set out in the Project Logical Framework/Results Framework (see Annex C), which provides performance and impact indicators for project implementation along with their corresponding means of verification. The evaluation will at a minimum cover the criteria of: relevance, effectiveness, efficiency, sustainability and impact. Ratings must be provided on the following performance criteria. The completed table must be included in the evaluation executive summary. The obligatory rating scales are included in Annex D.

Project Finance/ Co Finance
The Evaluation will assess the key financial aspects of the project, including the extent of co-financing planned and realized. Project cost and funding data will be required, including annual expenditures. Variances between planned and actual expenditures will need to be assessed and explained. Results from recent financial audits, as available, should be taken into consideration. The evaluator will receive assistance from the Multi-Country Office (MCO) and Project Team to obtain financial data in order to complete the co-financing table below, which will be included in the terminal evaluation report.

**Mainstreaming:**

UNDP supported GEF financed projects are key components in UNDP country programming, as well as regional and global programmes. The evaluation will assess the extent to which the project was successfully mainstreamed with other UNDP priorities, including poverty alleviation, improved governance, the prevention and recovery from natural disasters, and gender.

**Impact:**

The evaluator will assess the extent to which the project is achieving impacts or progressing towards the achievement of impacts. Key findings that should be brought out in the evaluations include whether the
project has demonstrated: a) verifiable improvements in ecological status, b) verifiable reductions in stress on ecological systems, and/or c) demonstrated progress towards these impact achievements.3

**Conclusions, Recommendations & Lessons:**

The evaluation report must include a chapter providing a set of conclusions, recommendations and lessons.
