UNDP Armenia Revised Evaluation Plan 2016-2020

Subject: **Request for Deletion of Evaluation of the 2016-2020 Country Programme Document Outcome 1 (10) "By 2020, competitiveness is improved and population, including vulnerable groups, have greater access to sustainable economic opportunities"**

Dear Dmitry,

In 2019, Independent Evaluation Office of UNDP conducted a comprehensive Independent Country Programme Evaluation (ICPE) that reviewed systematically the development results of all four outcomes of the 2016-2020 Country Programme Document (CPD). The evaluation report is now publicly available on UNDP Independent Evaluation Office and Evaluation Resource Centre.

Issuance of a separate process for the mentioned CPD outcome evaluation would be excessive. Based on UNDP Evaluation policy and consultations with the Regional Bureau this is a recommendation and request to delete the mentioned outcome evaluation from UNDP Armenia 2016-2020 Evaluation Plan.

Thank you in advance.
