

Midterm Review Terms of Reference

Standard Template 2: Formatted information to be entered in [UNDP Jobs website](#)¹

BASIC CONTRACT INFORMATION

Location: Indonesia

Application Deadline: 23:59 PM GMT +7 on 18 September 2020

Type of Contract: Individual Contract

Post Level: International Consultant

Languages Required: English (Knowledge of Bahasa Indonesia would be an asset)

Starting Date: 01 October 2020

Duration of Initial Contract: 35 working days

Expected Duration of Assignment: October 2020 – November 2020

BACKGROUND

A. Project Title

Combating illegal and unsustainable trade in endangered species in Indonesia

B. Project Description

This is the Terms of Reference (ToR) for -the Midterm Review (MTR) of the full-sized UNDP-supported GEF-financed project titled *Combating illegal and unsustainable trade in endangered species in Indonesia* (PIMS-5391) implemented through the Directorate General of Law Enforcement on Environment and Forestry Ministry of Environment and Forestry which is to be undertaken in 7 year. The project started on the 12 November 2017 and is in its third year of implementation. This ToR sets out the expectations for this MTR. The MTR process must follow the guidance outlined in the document Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects (http://web.undp.org/evaluation/documents/guidance/GEF/mid-term/Guidance_Midterm%20Review%20_EN_2014.pdf).

The development challenge that the project seeks to address concerns the devastating impact of unsustainable and illegal wildlife trade (IWT) on wildlife populations in Indonesia and SE Asia. The value of the illegal trade in Indonesia alone is estimated at up to US\$ 1 billion per year. Factoring in the unsustainable legal trade, the value rockets, representing an enormous economic, environmental, and social loss. This trade has already caused the decline and local extinction of many species across SE Asia. Much of the trade is highly organized, benefits a relatively small criminal fraternity, whilst depriving developing economies of billions of dollars in lost revenues and development opportunities.

Within SE Asia, a significant amount of this trade starts from Indonesia, one of the world's top 10 'megadiverse' countries and the largest supplier of wildlife products in Asia, both 'legal' and illegal. The IWT and associated

¹ <https://jobs.undp.org/>

bushmeat trade are an immediate threat to the existence of key endangered species such as the Sumatran and Javan Rhinoceros, Sumatran Tiger, Asian Elephant and Sunda Pangolin amongst a wide range of less prominent species. Indonesia is also becoming an important transit point for IWT from Africa to East Asia, such as African Ivory. The consequence of the unsustainable trade is a massive threat to globally important wildlife.

The project aims to remove the barriers to accomplishing the long term solution to this challenge, namely to conserve key wildlife species in Indonesia, by ensuring that the legal wildlife trade is ecologically and economically sustainable, while reducing the scale and impact of illegal wildlife trafficking, both from Indonesia and in transit through the country.

The Project Objective is to reduce the volume of unsustainable wildlife trade and the rate of loss of globally significant biodiversity in Indonesia and East and South-East Asia. The four outcomes of the project are:

Outcome 1: Strengthened national policy, legal and institutional framework for regulating legal commercial wildlife trade and combating illegal wildlife trade.

Outcome 2: Strengthened institutional capacity for regulatory coordination, implementation and enforcement at the national and international levels.

Outcome 3: Improved enforcement strategy demonstrated and scaled up at key trade ports and connected subnational regions with key ecosystems.

Outcome 4: Implementation and upscaling/replication of project approaches at national and international levels is supported by effective knowledge management and gender mainstreaming.

This project is part of the GEF Programmatic Approach to Prevent the Extinction of Known Threatened Species, and falls under the GEF Programme Global Partnership on Wildlife Conservation and Crime Prevention For Sustainable Development which is led by the World Bank.

The total allocated resources for this project is US \$ USD 6,988,853. In addition, in-kind Parallel Funding is US \$ 51,937,595 from the Government of Indonesia and NGO partners. Directorate General of Law Enforcement on Environment and Forestry under the Ministry of Environment and Forestry is the Implementing Partner for the project.

As of 30 August 2020, there were 172,053 confirmed cases of Covid-19 in Indonesia, of which 7,343 were fatalities and 124,185 persons recovered. Covid-19 has spread in 34 provinces and 487 regencies/cities across Indonesia. Some regions implemented large social restrictions to prevent Covid-19 pandemics. Covid-19 pandemics have affected the implementation of the project. Based on the assessment, some works can continue on-schedule, while some are deferred and likely to delay and some may need readjustment to adapt to the new normal.

C. MTR Purpose

The MTR will assess progress towards the achievement of the project objectives and outcomes as specified in the Project Document, and assess early signs of project success or failure with the goal of identifying the necessary changes to be made in order to set the project on-track to achieve its intended results. The MTR will also review the project's strategy and its risks to sustainability.

The MTR will also look at any project interventions that have contributed directly or indirectly to government's effort of COVID-19 recovery both at the national level and project sites.

DUTIES AND RESPONSIBILITIES

D. MTR Approach & Methodology

The MTR report must provide evidence-based information that is credible, reliable and useful.

The MTR team will review all relevant sources of information including documents prepared during the preparation phase (i.e. PIF, UNDP Initiation Plan, UNDP Social and Environmental Screening Procedure/SESP), the Project Document, project reports including annual PIRs, project budget revisions, national strategic and legal documents, and any other materials that the team considers useful for this evidence-based review. The MTR team will review the baseline GEF focal area Core Indicators/Tracking Tools submitted to the GEF at CEO endorsement, and the midterm GEF focal area Core Indicators/Tracking Tools that must be completed before the MTR field mission begins.

The MTR team is expected to follow a collaborative and participatory approach² ensuring close engagement with the Project Team, government counterparts (the GEF Operational Focal Point), the UNDP Country Office(s), the Nature, Climate and Energy (NCE) Regional Technical Advisor, direct beneficiaries, and other key stakeholders.

Engagement of stakeholders is vital to a successful MTR. Stakeholder involvement should include interviews with stakeholders who have project responsibilities, including but not limited to Directorate General of Law Enforcement on Environment and Forestry Ministry of Environment and Forestry; National Project Director (NPD) CIWT Project; Directorate of Forest Protection Ministry of Environment and Forestry; Directorate of Biodiversity Conservation Ministry of Environment and Forestry; GEF Operational Focal Point of Indonesia; Head of BBKSDA North Sumatera, Head of BBKSDA Riau; Head of Balai Gakkum Sumatera; Head of Balai Gakkum Sulawesi; Head of Gunung Leuser National Park; Head of BKSDA North Sumatera, Head of Bogani Nanti Wartabone National Park; executing agencies, senior officials and task team/ component leaders, key experts and consultants in the subject area, Project Board, project stakeholders, academia, local government and CSOs, etc. Additionally, the MTR team may require conducting field missions to Surabaya, East Java; Pekanbaru, Riau; Kotamobagu, North Sulawesi; Manado, North Sulawesi.

As of 11 March 2020, the World Health Organization (WHO) declared COVID-19 a global pandemic as the new coronavirus rapidly spread to all regions of the world. Travel to the country has been restricted since 03/2020 and travel in the country is also restricted. If it is not possible to travel to or within the country for the MTR mission then the MTR team should develop a methodology that takes this into account the conduct of the MTR virtually and remotely, including the use of remote interview methods and extended desk reviews, data analysis, surveys and evaluation questionnaires. International consultants can work remotely with national evaluator support in the field if it is safe for them to operate and travel. A short validation mission may be considered if it is confirmed to be safe for staff, consultants, stakeholders and if such a mission is possible within the MTR schedule. This should be detailed in the MTR Inception Report and agreed with the Commissioning Unit

If all or part of the MTR is to be carried out virtually then consideration should be taken for stakeholder availability, ability or willingness to be interviewed remotely. In addition, their accessibility to the internet/computer may be an issue as many government and national counterparts may be working from home. These limitations must be reflected in the final MTR report.

If a data collection/field mission is not possible then remote interviews may be undertaken through telephone or online (skype, zoom etc.). International consultants can work remotely with national evaluator support in

² For ideas on innovative and participatory Monitoring and Evaluation strategies and techniques, see [UNDP Discussion Paper: Innovations in Monitoring & Evaluating Results](#), 05 Nov 2013.

the field if it is safe for them to operate and travel. No stakeholders, consultants or UNDP staff should be put in harm's way and safety is the key priority.

A short validation mission may be considered if it is confirmed to be safe for staff, consultants, stakeholders and if such a mission is possible within the MTR schedule. Equally, qualified and independent national consultants can be hired to undertake the MTR and interviews in country as long as it is safe to do so.

The specific design and methodology for the MTR should emerge from consultations between the MTR team and the above-mentioned parties regarding what is appropriate and feasible for meeting the MTR purpose and objectives and answering the evaluation questions, given limitations of budget, time and data. Considering the COVID-19 situation, the MTR team should consider flexibility in using technologies and tools to effectively engage stakeholder virtually. The MTR team must use gender-responsive methodologies and tools and ensure that gender equality and women's empowerment, as well as other cross-cutting issues and SDGs are incorporated into the MTR report.

The final methodological approach including interview schedule, field visits and data to be used in the MTR must be clearly outlined in the Inception Report and be fully discussed and agreed between UNDP, stakeholders and the MTR team.

The final MTR report must describe the full MTR approach taken and the rationale for the approach making explicit the underlying assumptions, challenges, strengths and weaknesses about the methods and approach of the review.

E. Detailed Scope of the MTR

The MTR team will assess the following four categories of project progress. See the *Guidance for Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects* for extended descriptions.

1. Project Strategy

Project Design:

- Review the problem addressed by the project and the underlying assumptions. Review the effect of any incorrect assumptions or changes to the context to achieving the project results as outlined in the Project Document.
- Review the relevance of the project strategy and assess whether it provides the most effective route towards expected/intended results. Were lessons from other relevant projects properly incorporated into the project design?
- Review how the project addresses country priorities. Review country ownership. Was the project concept in line with the national sector development priorities and plans of the country (or of participating countries in the case of multi-country projects)?
- Review decision-making processes: were perspectives of those who would be affected by project decisions, those who could affect the outcomes, and those who could contribute information or other resources to the process, taken into account during project design processes?
- Review the extent to which relevant gender issues were raised in the project design. See Annex 9 of *Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects* for further guidelines.
 - Were relevant gender issues (e.g. the impact of the project on gender equality in the programme country, involvement of women's groups, engaging women in project activities) raised in the Project Document?
- If there are major areas of concern, recommend areas for

Results Framework/Logframe:

- Undertake a critical analysis of the project's logframe indicators and targets, assess how "SMART" the midterm and end-of-project targets are (Specific, Measurable, Attainable, Relevant, Time-bound), and suggest specific amendments/revisions to the targets and indicators as necessary.
- Are the project's objectives and outcomes or components clear, practical, and feasible within its time frame?
- Examine if progress so far has led to or could in the future catalyse beneficial development effects (i.e. income generation, gender equality and women's empowerment, improved governance etc...) that should be included in the project results framework and monitored on an annual basis.
- Ensure broader development and gender aspects of the project are being monitored effectively. Develop and recommend SMART 'development' indicators, including sex-disaggregated indicators and indicators that capture development benefits.

2. Progress Towards Results

- Review the logframe indicators against progress made towards the end-of-project targets; populate the Progress Towards Results Matrix, as described in the *Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects*; colour code progress in a "traffic light system" based on the level of progress achieved; assign a rating on progress for the project objective and each outcome; make recommendations from the areas marked as "not on target to be achieved" (red).
- Compare and analyse the GEF Tracking Tool/Core Indicators at the Baseline with the one completed right before the Midterm Review.
- Identify remaining barriers to achieving the project objective in the remainder of the project.
- By reviewing the aspects of the project that have already been successful, identify ways in which the project can further expand these benefits.

3. Project Implementation and Adaptive Management

Management Arrangements

- Review overall effectiveness of project management as outlined in the Project Document. Have changes been made and are they effective? Are responsibilities and reporting lines clear? Is decision-making transparent and undertaken in a timely manner? Recommend areas for improvement.
- Review the quality of execution of the Executing Agency/Implementing Partner(s) and recommend areas for improvement.
- Review the quality of support provided by the GEF Partner Agency (UNDP) and recommend areas for improvement.
- Do the Executing Agency/Implementing Partner and/or UNDP and other partners have the capacity to deliver benefits to or involve women? If yes, how?
- What is the gender balance of project staff? What steps have been taken to ensure gender balance in project staff?
- What is the gender balance of the Project Board? What steps have been taken to ensure gender balance in the Project Board?

Work Planning

- Review any delays in project start-up and implementation, identify the causes and examine if they have been resolved.
- Are work-planning processes results-based? If not, suggest ways to re-orientate work planning to focus on results?
- Examine the use of the project's results framework/ logframe as a management tool and review any changes made to it since project start.

Finance and co-finance

- Consider the financial management of the project, with specific reference to the cost-effectiveness of interventions.
- Review the changes to fund allocations as a result of budget revisions and assess the appropriateness and relevance of such revisions.
- Does the project have the appropriate financial controls, including reporting and planning, that allow management to make informed decisions regarding the budget and allow for timely flow of funds?
- Informed by the co-financing monitoring table to be filled out by the Commissioning Unit and project team, provide commentary on co-financing: is co-financing being used strategically to help the objectives of the project? Is the Project Team meeting with all co-financing partners regularly in order to align financing priorities and annual work plans?

Sources of Co-financing	Name of Co-financer	Type of Co-financing	Co-financing amount confirmed at CEO Endorsement (US\$)	Actual Amount Contributed at stage of Midterm Review (US\$)	Actual % of Expected Amount
UNDP		In-kind	100,000		
Government	DG-Law Enforcement, MoEF	In-kind	42,848,742		
NGO	Wildlife Conservation Society	In-kind	2,000,000		
		TOTAL	44,948,742		

- Include the separate GEF Co-Financing template (filled out by the Commissioning Unit and project team) which categorizes co-financing amounts by source as ‘investment mobilized’ or ‘recurrent expenditures’. (This template will be annexed as a separate file.)

Project-level monitoring and evaluation systems

- Review the monitoring tools currently being used: Do they provide the necessary information? Do they involve key partners? Are they aligned or mainstreamed with national systems? Do they use existing information? Are they efficient? Are they cost-effective? Are additional tools required? How could they be made more participatory and inclusive?
- Examine the financial management of the project monitoring and evaluation budget. Are sufficient resources being allocated to monitoring and evaluation? Are these resources being allocated effectively?
- Review the extent to which relevant gender issues were incorporated in monitoring systems. See Annex 9 of *Guidance For Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects* for further guidelines.

Stakeholder Engagement

- Project management: Has the project developed and leveraged the necessary and appropriate partnerships with direct and tangential stakeholders?

- Participation and country-driven processes: Do local and national government stakeholders support the objectives of the project? Do they continue to have an active role in project decision-making that supports efficient and effective project implementation?
- Participation and public awareness: To what extent has stakeholder involvement and public awareness contributed to the progress towards achievement of project objectives?
- How does the project engage women and girls? Is the project likely to have the same positive and/or negative effects on women and men, girls and boys? Identify, if possible, legal, cultural, or religious constraints on women’s participation in the project. What can the project do to enhance its gender benefits?

Social and Environmental Standards (Safeguards)

- Validate the risks identified in the project’s most current SESP, and those risks’ ratings; are any revisions needed?
- Summarize and assess the revisions made since CEO Endorsement/Approval (if any) to:
 - The project’s overall safeguards risk categorization.
 - The identified types of risks³ (in the SESP).
 - The individual risk ratings (in the SESP) .
- Describe and assess progress made in the implementation of the project’s social and environmental management measures as outlined in the SESP submitted at CEO Endorsement/Approval (and prepared during implementation, if any), including any revisions to those measures. Such management measures might include Environmental and Social Management Plans (ESMPs) or other management plans, though can also include aspects of a project’s design; refer to Question 6 in the SESP template for a summary of the identified management measures.

A given project should be assessed against the version of UNDP’s safeguards policy that was in effect at the time of the project’s approval.

Reporting

- Assess how adaptive management changes have been reported by the project management and shared with the Project oard.
- Assess how well the Project Team and partners undertake and fulfil GEF reporting requirements (i.e. how have they addressed poorly-rated PIRs, if applicable?)
- Assess how lessons derived from the adaptive management process have been documented, shared with key partners and internalized by partners.

Communications & Knowledge Management

- Review internal project communication with stakeholders: Is communication regular and effective? Are there key stakeholders left out of communication? Are there feedback mechanisms when communication is received? Does this communication with stakeholders contribute to their awareness of project outcomes and activities and investment in the sustainability of project results?
- Review external project communication: Are proper means of communication established or being established to express the project progress and intended impact to the public (is there a web presence, for example? Or did the project implement appropriate outreach and public awareness campaigns?)

³ Risks are to be labeled with both the UNDP SES Principles and Standards, and the GEF’s “types of risks and potential impacts”: Climate Change and Disaster; Disadvantaged or Vulnerable Individuals or Groups; Disability Inclusion; Adverse Gender-Related impact, including Gender-based Violence and Sexual Exploitation; Biodiversity Conservation and the Sustainable Management of Living Natural Resources; Restrictions on Land Use and Involuntary Resettlement; Indigenous Peoples; Cultural Heritage; Resource Efficiency and Pollution Prevention; Labor and Working Conditions; Community Health, Safety and Security.

- For reporting purposes, write one half-page paragraph that summarizes the project’s progress towards results in terms of contribution to sustainable development benefits, as well as global environmental benefits.
- List knowledge activities/products developed (based on knowledge management approach approved at CEO Endorsement/Approval).

4. Sustainability

- Validate whether the risks identified in the Project Document, Annual Project Review/PIRs and the ATLAS Risk Register are the most important and whether the risk ratings applied are appropriate and up to date. If not, explain why.
- In addition, assess the following risks to sustainability:

Financial risks to sustainability:

- What is the likelihood of financial and economic resources not being available once the GEF assistance ends (consider potential resources can be from multiple sources, such as the public and private sectors, income generating activities, and other funding that will be adequate financial resources for sustaining project’s outcomes)?

Socio-economic risks to sustainability:

- Are there any social or political risks that may jeopardize sustainability of project outcomes? What is the risk that the level of stakeholder ownership (including ownership by governments and other key stakeholders) will be insufficient to allow for the project outcomes/benefits to be sustained? Do the various key stakeholders see that it is in their interest that the project benefits continue to flow? Is there sufficient public / stakeholder awareness in support of the long-term objectives of the project? Are lessons learned being documented by the Project Team on a continual basis and shared/ transferred to appropriate parties who could learn from the project and potentially replicate and/or scale it in the future?

Institutional Framework and Governance risks to sustainability:

- Do the legal frameworks, policies, governance structures and processes pose risks that may jeopardize sustenance of project benefits? While assessing this parameter, also consider if the required systems/ mechanisms for accountability, transparency, and technical knowledge transfer are in place.

Environmental risks to sustainability:

- Are there any environmental risks that may jeopardize sustenance of project outcomes?

Conclusions & Recommendations

The MTR consultant/team will include a section in the MTR report for evidence-based **conclusions**, in light of the findings.

Additionally, the MTR consultant/team is expected to make **recommendations** to the Project Team. Recommendations should be succinct suggestions for critical intervention that are specific, measurable, achievable, and relevant. A recommendation table should be put in the report’s executive summary. The MTR consultant/team should make no more than 15 recommendations total.

Ratings

The MTR team will include its ratings of the project's results and brief descriptions of the associated achievements in a *MTR Ratings & Achievement Summary Table* in the Executive Summary of the MTR report. See the TOR Annexes for the Rating Table and ratings scales.

F. Expected Outputs and Deliverables

The MTR team shall prepare and submit:

- MTR Inception Report: MTR team clarifies objectives and methods of the Midterm Review no later than 2 weeks before the MTR mission. To be sent to the Commissioning Unit and project management. Completion date: 05 October 2020
- Presentation: MTR team presents initial findings to project management and the Commissioning Unit at the end of the MTR mission. Completion date: 28 October 2020
- Draft MTR Report: MTR team submits the draft full report with annexes within 3 weeks of the MTR mission. Completion date: 03 November 2020
- Final Report*: MTR team submits the revised report with annexed and completed Audit Trail detailing how all received comments have (and have not) been addressed in the final MTR report. To be sent to the Commissioning Unit within 1 week of receiving UNDP comments on draft. Completion date: 26 November 2020

*The final MTR report must be in English. If applicable, the Commissioning Unit may choose to arrange for a translation of the report into a language more widely shared by national stakeholders.

G. Institutional Arrangements

The principal responsibility for managing this MTR resides with the Commissioning Unit. The Commissioning Unit for this project's MTR is UNDP Indonesia Country Office.

The Commissioning Unit will contract the consultants and ensure the timely provision of per diems and travel arrangements within the country for the MTR team and will provide an updated stakeholder list with contact details (phone and email). The Project Team will be responsible for liaising with the MTR team to provide all relevant documents, set up stakeholder interviews, and arrange field visits.

H. Duration of the Work

The total duration of the MTR will be approximately 35 of days over a period of 5 weeks starting 01 October 2020 and shall not exceed five months from when the consultant(s) are hired. The tentative MTR timeframe is as follows:

- 18 September 2020: Application closes
- 25 September 2020: Selection of MTR Team
- 28 September 2020: Prep the MTR Team (handover of project documents)
- 05 October 2020, 02 days (*r: 2-4*): Document review and preparing MTR Inception Report
- 08 October 2020, 03 days: Finalization and Validation of MTR Inception Report- latest start of MTR mission
- 10 – 24 October 2020 14 days (*r: 7-15*): MTR mission: online stakeholder meetings, online interviews
- 28 October 2020: Mission wrap-up meeting & presentation of initial findings- earliest end of MTR mission

- 07 November 2020) 05 days (*r: 5-10*): Preparing draft report
- 04 November 2020 01 day (*r: 1-2*): Incorporating audit trail on draft report/Finalization of MTR report
- 06 November 2020: Preparation & Issue of Management Response
- 18 November 2020): (optional) Concluding Stakeholder Workshop (not mandatory for MTR team)
- 26 November 2020: Expected date of full MTR completion

The date start of contract is 01 October 2020.

I. Duty Station

- The contractor's duty station will be home-based with possibility of travel to Jakarta, Aceh Province, Riau Province, East Java Province and North Sulawesi Province during field visit to project sites, subject to the approval from RR or Head of Unit.
- The consultant is working on the output-based, thus no necessity to report or present regularly

Travel:

- International travel may require to Indonesia during the MTR mission, if the travel is permitted;
- The BSAFE training course must be successfully completed prior to commencement of travel; Herewith is the link to access this training: <https://training.dss.un.org/courses/login/index.php> . These training modules at this secure internet site is accessible to Consultants, which allows for registration with private email.
- Individual Consultants are responsible for ensuring they have vaccinations/inoculations when travelling to certain countries, as designated by the UN Medical Director.
- Consultants are required to comply with the UN security directives set forth under <https://dss.un.org/dssweb/>
- All related travel expenses will be covered and will be reimbursed as per UNDP rules and regulations upon submission of an F-10 claim form and supporting documents.

No	Indicative Location	Frequency	Number of Travel Days
1	Aceh	1	4
2	Riau	1	3
3	East Java	1	3
4	North Sulawesi	1	4

REQUIRED SKILLS AND EXPERIENCE

J. Qualifications of the Successful Applicants

A team of two independent consultants will conduct the MTR - one team leader (International Consultant) and one team expert (National Consultant). The team leader will be responsible for the overall design and writing of the MTR report. The team expert will assess emerging trends with respect to regulatory frameworks, budget allocations, capacity building, work with the Project Team in developing the MTR itinerary. The National Consultant will also act as a focal point for coordinating and working with relevant stakeholders in Indonesia. If the international travel restriction continues and, in-country mission is not possible, the MTR team will use alternative means of interviewing stakeholders

and data collection (i.e. Skype interview, mobile questionnaires, etc.) including the field visit by the National Consultant under the International Consultant’s guidance.

The consultants cannot have participated in the project preparation, formulation, and/or implementation (including the writing of the Project Document) and should not have a conflict of interest with project’s related activities.

The selection of consultants will be aimed at maximizing the overall “team” qualities in the following areas:

When using this weighted scoring method, the award of the contract should be made to the individual consultant whose offer has been evaluated and determined as:

- a) Responsive/compliant/acceptable, and
- b) Having received the highest score out of a pre-determined set of weighted technical and financial criteria specific to the solicitation.

* Technical Criteria weight; 70%

* Financial Criteria weight; 30%

Only candidates obtaining a minimum of 70 point would be considered for the Financial Evaluation

Criteria	Weight	Maximum Point
<i>Technical Criteria</i>		
CriteriaA: qualification requirements as per ToR:	40%	
Master’s degree in forestry, biodiversity studies, wildlife management and other biodiversity related fields. Experience in illegal wildlife trade is an advantage or other closely related field		10
At least ten (10) years’ experience with result-based management and evaluation methodologies particularly in the area of sustainable development and/or biodiversity/illegal wildlife trade with gender sensitive analysis		10
Experience working with the UNand/or GEF or GEF-evaluations		10
Experience working in Asia-Pacific region		10
CriteriaB: Brief Description of Approach to Assignment	60%	
Understands the task and applies a methodology appropriate for the task?		25
Important aspects of the task addressed clearly and in sufficient detail?		20

Is planning logical, realistic for efficient project implementation?		15
--	--	----

Education

A Master’s degree in forestry, biodiversity studies, wildlife management and other biodiversity related fields. Experience in illegal wildlife trade is an advantage

Experience

- Relevant experience with result-based management evaluation methodologies;
- Experience applying SMART indicators and reconstructing or validating baseline scenarios;
- Competence in adaptive management, as applied to Illegal Wildlife Trade/Biodiversity;
- Experience in evaluating projects;
- Experience working in Asia Pacific;
- Experience in relevant technical areas for at least 10 years;
- Demonstrated understanding of issues related to gender and Illegal Wildlife Trade/Biodiversity; experience in gender sensitive evaluation and analysis.
- Experience with implementing evaluations remotely will be considered an asset.
- Excellent communication skills;
- Demonstrable analytical skills;
- Project evaluation/review experiences within United Nations system will be considered an asset.

Language

- Fluency in written and spoken English.
- Knowledge of Bahasa would be an asset.

K. Ethics

The MTR team will be held to the highest ethical standards and is required to sign a code of conduct upon acceptance of the assignment. This MTR will be conducted in accordance with the principles outlined in the UNEG ‘Ethical Guidelines for Evaluation’. The MTR team must safeguard the rights and confidentiality of information providers, interviewees and stakeholders through measures to ensure compliance with legal and other relevant codes governing collection of data and reporting on data. The MTR team must also ensure security of collected information before and after the MTR and protocols to ensure anonymity and confidentiality of sources of information where that is expected. The information, knowledge and data gathered in the MTR process must also be solely used for the MTR and not for other uses without the express authorization of UNDP and partners.

L. Schedule of Payments

- 20% payment upon satisfactory delivery of the final MTR Inception Report and approval by the Commissioning Unit
- 40% payment upon satisfactory delivery of the draft MTR report to the Commissioning Unit
- 40% payment upon satisfactory delivery of the final MTR report and approval by the Commissioning Unit and RTA (via signatures on the TE Report Clearance Form) and delivery of completed TE Audit Trail

Criteria for issuing the final payment of 40%

- The final MTR report includes all requirements outlined in the MTR TOR and is in accordance with the MTR guidance.
- The final MTR report is clearly written, logically organized, and is specific for this project (i.e. text has not been cut & pasted from other MTR reports).
- The Audit Trail includes responses to and justification for each comment listed.

APPLICATION PROCESS

M. Recommended Presentation of Offer

- a) **Letter of Confirmation of Interest and Availability** using the [template](#)⁴ provided by UNDP;
- b) **CV** and a **Personal History Form** ([P11 form](#)⁵);
- c) **Brief description of approach to work/technical proposal** of why the individual considers him/herself as the most suitable for the assignment, and a proposed methodology on how they will approach and complete the assignment; (max 1 page)
- d) **Financial Proposal** that indicates the all-inclusive fixed total contract price and all other travel related costs (such as flight ticket, per diem, etc), supported by a breakdown of costs, as per template attached to the [Letter of Confirmation of Interest template](#). If an applicant is employed by an organization/company/institution, and he/she expects his/her employer to charge a management fee in the process of releasing him/her to UNDP under Reimbursable Loan Agreement (RLA), the applicant must indicate at this point, and ensure that all such costs are duly incorporated in the financial proposal submitted to UNDP.

All application materials should be submitted to the address UNDP Indonesia Procurement Unit Menara Thamrin 7-9th Floor Jl. MH Thamrin Kav. 3 Jakarta 10250 in a sealed envelope indicating the following reference “Consultant for Combatting illegal and unsustainable trade in endangered species in Indonesia Midterm Review” or by email at the following address ONLY: (bids.id@undp.org) by **(23:59 PM GMT +7 on 18 September 2020)**. Incomplete applications will be excluded from further consideration.

N. Criteria for Selection of the Best Offer

Only those applications which are responsive and compliant will be evaluated. Offers will be evaluated according to the Combined Scoring method – where the educational background and experience on similar assignments will be weighted at 70% and the price proposal will weigh as 30% of the total scoring. The applicant receiving the Highest Combined Score that has also accepted UNDP’s General Terms and Conditions will be awarded the contract.

O. Annexes to the MTR ToR

Annexes include: (reference ToR Annexes in Annex 3 of *Guidance for Conducting Midterm Reviews of UNDP-Supported, GEF-Financed Projects*)

ToR ANNEX A: List of Documents to be reviewed by the MTR Team

(The Commissioning Unit is responsible for compiling these documents prior to the recruitment of the MTR team so that they are available to the team immediately after contract signature.)

1. PIF
2. UNDP Initiation Plan
3. UNDP Project Document
4. UNDP Social and Environmental Screening Procedure (SESP)
5. Project Inception Report
6. All Project Implementation Reports (PIR's)
7. Quarterly progress reports and work plans of the various implementation task teams
8. Audit reports
9. Finalized GEF focal area Tracking Tools/Core Indicators at CEO endorsement and midterm review
10. Oversight mission reports
11. All monitoring reports prepared by the project
12. Financial and Administration guidelines used by Project Team

The following documents will also be available:

13. Project operational guidelines, manuals and systems
14. UNDP country/countries programme document(s)
15. Minutes of the Combatting illegal and unsustainable trade in endangered species in Indonesia Board Meetings and other meetings (i.e. Project Appraisal Committee meetings)
16. Project site location maps

ToR ANNEX B: Guidelines on Contents for the Midterm Review Report⁸

- i. Basic Report Information (*for opening page or title page*)
 - Title of UNDP supported GEF financed project
 - UNDP PIMS# and GEF project ID#
 - MTR time frame and date of MTR report
 - Region and countries included in the project
 - GEF Operational Focal Area/Strategic Program
 - Executing Agency/Implementing Partner and other project partners
 - MTR team members
 - Acknowledgements
- ii. Table of Contents
- iii. Acronyms and Abbreviations
1. Executive Summary (*3-5 pages*)
 - Project Information Table
 - Project Description (brief)
 - Project Progress Summary (between 200-500 words)
 - MTR Ratings & Achievement Summary Table
 - Concise summary of conclusions
 - Recommendation Summary Table
2. Introduction (*2-3 pages*)
 - Purpose of the MTR and objectives
 - Scope & Methodology: principles of design and execution of the MTR, MTR approach and data collection methods, limitations to the MTR
 - Structure of the MTR report
3. Project Description and Background Context (*3-5 pages*)
 - Development context: environmental, socio-economic, institutional, and policy factors relevant to the project objective and scope
 - Problems that the project sought to address threats and barriers targeted
 - Project Description and Strategy: objective, outcomes and expected results, description of field sites (if any)
 - Project Implementation Arrangements: short description of the Project Board, key implementing partner arrangements, etc.
 - Project timing and milestones
 - Main stakeholders: summary list
4. Findings (*12-14 pages*)
 - 4.1 Project Strategy
 - Project Design
 - Results Framework/Logframe
 - 4.2 Progress Towards Results
 - Progress towards outcomes analysis
 - Remaining barriers to achieving the project objective
 - 4.3 Project Implementation and Adaptive Management
 - Management Arrangements
 - Work planning
 - Finance and co-finance
 - Project-level monitoring and evaluation systems
 - Stakeholder engagement
 - Social and Environmental Standards (Safeguards)
 - Reporting

⁸ The Report length should not exceed 40 pages in total (not including annexes).

- Communications & Knowledge Management
- 4.4 Sustainability
 - Financial risks to sustainability
 - Socio-economic to sustainability
 - Institutional framework and governance risks to sustainability
 - Environmental risks to sustainability
- 5. Conclusions and Recommendations (4-6 pages)
 - 5.1 Conclusions
 - Comprehensive and balanced statements (that are evidence-based and connected to the MTR's findings) which highlight the strengths, weaknesses and results of the project
 - 5.2 Recommendations
 - Corrective actions for the design, implementation, monitoring and evaluation of the project
 - Actions to follow up or reinforce initial benefits from the project
 - Proposals for future directions underlining main objectives
- 6. Annexes
 - MTR ToR (excluding ToR annexes)
 - MTR evaluative matrix (evaluation criteria with key questions, indicators, sources of data, and methodology)
 - Example Questionnaire or Interview Guide used for data collection
 - Ratings Scales
 - MTR mission itinerary
 - List of persons interviewed
 - List of documents reviewed
 - Co-financing table (if not previously included in the body of the report)
 - Signed UNEG Code of Conduct form
 - Signed MTR final report clearance form
 - *Annexed in a separate file:* Audit trail from received comments on draft MTR report
 - *Annexed in a separate file:* Relevant midterm tracking tools (UNDP Capacity Development Scorecard for Gakkum, ICCWC Indicator Framework, PortMATE assessment) and *Core Indicators*
 - *Annexed in a separate file:* GEF Co-financing template (categorizing co-financing amounts by source as 'investment mobilized' or 'recurrent expenditure')

ToR ANNEX C: Midterm Review Evaluative Matrix Template

This Midterm Review Evaluative Matrix must be fully completed/amended by the consultant and included in the MTR inception report and as an Annex to the MTR report. This is a generic list with sample questions.

Evaluative Questions	Indicators	Sources	Methodology
Project Strategy: To what extent is the project strategy relevant to country priorities, country ownership, and the best route towards expected results?			
To what extent were the project objectives and outputs aligned with member States' and other project stakeholders' development strategies?			
Were the project's expected accomplishments and indicators of achievements properly designed, timebound and achievable?			
Progress Towards Results: To what extent have the expected outcomes and objectives of the project been achieved thus far?			
How effective was the project in building the capacity of policymaker on (...)?			
To what extent does the project contribute to the objective of enhanced capacity of (...) to use the tools and mechanisms developed under this project to (...)?			
Do the project-related activities give the participants adequate access to the benefits and implications of the project?			
Project Implementation and Adaptive Management: Has the project been implemented efficiently, cost-effectively, and been able to adapt to any changing conditions thus far? To what extent are project-level monitoring and evaluation systems, reporting, and project communications supporting the project's implementation? To what extent has progress been made in the implementation of social and			

environmental management measures? Have there been changes to the overall project risk rating and/or the identified types of risks as outlined at the CEO Endorsement stage?			
What was the level of involvement of (please insert division name) staff in meeting the requests for technical advice?			
How efficiently were human and financial resources used to deliver activities and outputs, in coordination with stakeholders?			
What were the major factors influencing the achievement or non - achievement of the project objectives?			
Sustainability: To what extent are there financial, institutional, socio-economic, and/or environmental risks to sustaining long-term project results?			
To what extent has support from other stakeholders, donors, or other multi-lateral or national partners been obtained to take forward positive outcomes resulting from the project?			
Was there adequate ownership of the project by the end-users, beneficiaries, and was there commitment displayed by them?			

ToR ANNEX D: UNEG Code of Conduct for Evaluators/Midterm Review Consultants⁹

Evaluators/Consultants:

1. Must present information that is complete and fair in its assessment of strengths and weaknesses so that decisions or actions taken are well founded.
2. Must disclose the full set of evaluation findings along with information on their limitations and have this accessible to all affected by the evaluation with expressed legal rights to receive results.
3. Should protect the anonymity and confidentiality of individual informants. They should provide maximum notice, minimize demands on time, and respect people's right not to engage. Evaluators must respect people's right to provide information in confidence and must ensure that sensitive information cannot be traced to its source. Evaluators are not expected to evaluate individuals and must balance an evaluation of management functions with this general principle.
4. Sometimes uncover evidence of wrongdoing while conducting evaluations. Such cases must be reported discreetly to the appropriate investigative body. Evaluators should consult with other relevant oversight entities when there is any doubt about if and how issues should be reported.
5. Should be sensitive to beliefs, manners and customs and act with integrity and honesty in their relations with all stakeholders. In line with the UN Universal Declaration of Human Rights, evaluators must be sensitive to and address issues of discrimination and gender equality. They should avoid offending the dignity and self-respect of those persons with whom they come in contact in the course of the evaluation. Knowing that evaluation might negatively affect the interests of some stakeholders, evaluators should conduct the evaluation and communicate its purpose and results in a way that clearly respects the stakeholders' dignity and self-worth.
6. Are responsible for their performance and their product(s). They are responsible for the clear, accurate and fair written and/or oral presentation of study limitations, findings and recommendations.
7. Should reflect sound accounting procedures and be prudent in using the resources of the evaluation.
8. Must ensure that independence of judgement is maintained, and that evaluation findings and recommendations are independently presented.
9. Must confirm that they have not been involved in designing, executing or advising on the project being evaluated.

MTR Consultant Agreement Form

Agreement to abide by the Code of Conduct for Evaluation in the UN System:

Name of Consultant: _____

Name of Consultancy Organization (where relevant): _____

I confirm that I have received and understood and will abide by the United Nations Code of Conduct for Evaluation.

ToR ANNEX E: MTR Ratings & Achievement Summary Table + Rating Scales

MTR Ratings & Achievement Summary Table for Combatting illegal and unsustainable trade in endangered species in Indonesia

Measure	MTR Rating	Achievement Description
Project Strategy	N/A	
Progress Towards Results	Objective Achievement Rating: (rate 6 pt. scale)	
	Outcome 1 Achievement Rating: (rate 6 pt. scale)	
	Outcome 2 Achievement Rating: (rate 6 pt. scale)	
	Outcome 3 Achievement Rating: (rate 6 pt. scale)	
	Etc.	
Project Implementation & Adaptive Management	(rate 6 pt. scale)	
Sustainability	(rate 4 pt. scale)	

Ratings for Progress Towards Results: (one rating for each outcome and for the objective)		
6	Highly Satisfactory (HS)	The objective/outcome is expected to achieve or exceed all its end-of-project targets, without major shortcomings. The progress towards the objective/outcome can be presented as “good practice”.
5	Satisfactory (S)	The objective/outcome is expected to achieve most of its end-of-project targets, with only minor shortcomings.
4	Moderately Satisfactory (MS)	The objective/outcome is expected to achieve most of its end-of-project targets but with significant shortcomings.
3	Moderately Unsatisfactory (HU)	The objective/outcome is expected to achieve its end-of-project targets with major shortcomings.
2	Unsatisfactory (U)	The objective/outcome is expected not to achieve most of its end-of-project targets.
1	Highly Unsatisfactory (HU)	The objective/outcome has failed to achieve its midterm targets and is not expected to achieve any of its end-of-project targets.

Ratings for Project Implementation & Adaptive Management: (one overall rating)		
6	Highly Satisfactory (HS)	Implementation of all seven components – management arrangements, work planning, finance and co-finance, project-level monitoring and evaluation systems, stakeholder engagement, reporting, and communications – is leading to efficient and effective project implementation and adaptive management. The project can be presented as “good practice”.
5	Satisfactory (S)	Implementation of most of the seven components is leading to efficient and effective project implementation and adaptive management except for only few that are subject to remedial action.
4	Moderately Satisfactory (MS)	Implementation of some of the seven components is leading to efficient and effective project implementation and adaptive management, with some components requiring remedial action.
3	Moderately Unsatisfactory (MU)	Implementation of some of the seven components is not leading to efficient and effective project implementation and adaptive, with most components requiring remedial action.
2	Unsatisfactory (U)	Implementation of most of the seven components is not leading to efficient and effective project implementation and adaptive management.
1	Highly Unsatisfactory (HU)	Implementation of none of the seven components is leading to efficient and effective project implementation and adaptive management.

Ratings for Sustainability: (one overall rating)		
4	Likely (L)	Negligible risks to sustainability, with key outcomes on track to be achieved by the project’s closure and expected to continue into the foreseeable future
3	Moderately Likely (ML)	Moderate risks, but expectations that at least some outcomes will be sustained due to the progress towards results on outcomes at the Midterm Review
2	Moderately Unlikely (MU)	Significant risk that key outcomes will not carry on after project closure, although some outputs and activities should carry on
1	Unlikely (U)	Severe risks that project outcomes as well as key outputs will not be sustained

ToR ANNEX F: MTR Report Clearance Form

(to be completed and signed by the Commissioning Unit and RTA and included in the final document)

Midterm Review Report Reviewed and Cleared By:	
Commissioning Unit (M&E Focal Point)	
Name: _____	
Signature: _____	Date: _____
Regional Technical Advisor (Nature, Climate and Energy)	
Name: _____	
Signature: _____	Date: _____

ToR ANNEX G: Audit Trail Template

Note: The following is a template for the MTR Team to show how the received comments on the draft MTR report have (or have not) been incorporated into the final MTR report. This audit trail should be included as an annex in the final MTR report.

To the comments received on (*date*) from the Midterm Review of Combatting illegal and unsustainable trade in endangered species in Indonesia (UNDP Project ID-PIMS 5391)

The following comments were provided in track changes to the draft Midterm Review report; they are referenced by institution (“Author” column) and not by the person’s name, and track change comment number (“#” column):

Author	#	Para No./ comment location	Comment/Feedback on the draft MTR report	MTR team response and actions taken

ToR ANNEX H: Progress Towards Results Matrix

Table. Progress Towards Results Matrix (Achievement of outcomes against End-of-project Targets)

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
Objective: To reduce the volume of unsustainable wildlife trade and the rate of loss of globally significant biodiversity in Indonesia and East and South-East Asia	0.1: Extent to which legal or policy or institutional frameworks are in place for conservation, sustainable use, and access and benefit sharing of natural resources, biodiversity and ecosystems. (IRRF Output 2.5 indicator 2.5.1)	UU5/1990 need to be revised (the current law has not specifically addressed IWT issue; PP7/1999 has not been revised)	Midterm target level achieved. 1. For PermenLHK No 447/2003 (Regulation of the Ministry of Environment and Forestry Number 447/2003) related to Procedure for Taking, Captivating, and Circulation of Plants and Wildlife currently under review by Legal Department, Directorate General of Natural Resources, and Ecosystem Conservation. The process of PermenLHK 447 revision postponed due to the Government of Indonesia's Omnibus Law drafting. The CIWT Project and Directorate of Biodiversity Conservation will continue the process	At least 3 additional policies/laws under review; Policy and institutional framework with specification on articles related to IWT PP7/1999, PP8/1999, Permen 447/2003 Working procedure of DG Gakkum and DG KSDAE, as well as MoEF and Ministry of Marine and Fisheries are developed.	At least 2 additional laws/policies completed Articles on IWT are accommodated in the revised UU 5/90 National strategy for combating IWT developed

			<p>Sustainable Livelihood Analysis (SLA) dan SWOT Analysis, recommended establishment Desa Wisata Tanjungsari “Sahabat Kukang”/Tourist Village of Tanjungsari “Friends of Loris” as an alternative livelihood (Ev6-YIARI Microgrant Final Report).</p> <p>3. Focus Group Discussions with village representatives have been conducted in Tegal Hamlet, Mekarsari Village, Pasir Jambu subdistrict, Bandung Regency to identify current and alternative livelihoods. It was agreed with the target community to use of cattle manure would be a useful product for using in the biodigester (Ev6-YIAR Microgrant Final Report).</p> <p>While, gender equality not easily fulfilled, due to the limited availability of female forest police.</p>					
	0.3: Expert evaluation of IWT annual volume	4666 wild animals are seized from 34 protected species	Mid and end of project target levels have been achieved (100%).	Increasing number of cases prosecuted	Increasing number of settled cases on IWT			

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
	(number of animal specimens – body parts or live animals) in Indonesia based on the WCS IWT database	51 cases prosecuted (LAKIP 2016) Source: LAKIP, Gakkum 2016	Based on data from Directorate of Criminal Law Enforcement, Directorate General of Law Enforcement on Environment and Forestry, Ministry of Environment and Forest showed an increasing number of cases prosecuted and settled cases on illegal wildlife trade. The data of the number of cases prosecuted from 2016-2019 was 51, 55, 41, and 65, respectively (Ev7-LAKIP DG of Law Enforcement 2019). While for settled cases was 51 (2016), 55 (2017), 41 (2018), and 65 (2019). (Ev7-LAKIP DG of Law Enforcement 2019). Compared to the previous year, LAKIP Gakkum not used as a data source due to a lack of access for data compilation. For years come, LAKIP Gakkum would be used as an official data source.					
	0.4: Number of individuals of IWT flagship species (Sumatran Tiger, Sumatran	2015: Tiger (5 poached); Elephant (7 poached); Rhino (1 poached); Anoa (10 poached), Babirusa (12), Black-crested macaque (~200)	To identify on poached flagship species, the Project will conduct a magnitude on wildlife trade in the second semester of 2020. A ToR has been prepared by PMU.	>20% reduction from baseline	>40% reduction from baseline			

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
	Rhinoceros, Sumatran Elephant, Black-crested macaque, Anoa and Babirusa) killed by poachers annually in the 2 project demonstration areas		<p>One of effort to reduce poaching as a direct threat to wildlife, CIWT Project supported protected area management conducted snare removal in two project demonstration areas.</p> <p>As stated by both Director General of Law Enforcement of Environment and Forestry and Director General of Natural Resources and Ecosystem Conservation, Ministry of Environment and Forestry, Indonesia now faced snares as a serious threat to Indonesian wildlife.</p> <p>Directorate of Forest Protection, Ministry of Environment and Forestry, supported by CIWT, conducted 4 (four) snare removal patrols:</p> <ul style="list-style-type: none"> • In August 2019, 8 teams from GLNP conducted 10 days patrol and found 108 mesh snares. • BKSDA Aceh conducted 10-day patrols in September 2019, covered a total area of 276.075 ha(s). Five teams found and destroyed 63 mesh snares. 					

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
			<ul style="list-style-type: none"> • Between November-December 2019, eight teams from BBKSDA Riau conducted a 10-day patrol covered a total area of 226,319,09 ha. They found and destroyed 170 mesh snares. • In December 2019, 12 teams from BNWNP conducted a 10-day patrol covered distance of 70 km and 600 ha total area. The teams found a massive 945 meshes. 					
Outcome 1: Effective national framework for managing wildlife trade. Strengthened national policy, legal and institutional framework for regulating illegal commercial wildlife trade and combating illegal wildlife trade	1.1: The following key legislation gaps are addressed by improved IWT legislation documents approved by Government: -Minimum fines and sentences increased to provide deterrent effect; -Non-native endangered species including elephant,	0	Based on data from Directorate of Forest Protection, Directorate General of Law Enforcement on Environment and Forestry, Ministry of Environment and Forestry, 12 operations of illegal wildlife trade conducted for the year 2019. The number of wildlife and its body parts seized from those trafficking operations 167 and 1.270, respectively (Ev7-LAKIP DG of Law Enforcement 2019). While related to fines and sentences analysis, the CIWT project collaborates with the Directorate of Criminal Law Enforcement will	-Minimum fines increase by 25% Average sentences increase by 10% on baseline. Indonesian protected species list updated to include all CITES Appendix 1 and globally threatened species, including non-native species	All key gaps incorporated in the issued legislation and be implemented

			will be conducted in the second semester of 2020.					
Outcome 2: Institutional capacity for implementation and enforcement at the national and international levels. Strengthened institutional capacity for regulatory coordination, implementation and enforcement at the national and international levels	2.1: Strengthened institutional capacity to combat IWT as indicated by i) the ICCWC Indicator Framework (note – baselines to be determined in year 1) ii) UNDP Capacity Development Scorecard for Gakkum (see Annex 18) iii) Operational status of Gakkum's Information System	i)ICCWC Indicator Framework – Baseline scores TBD ii)UNDP CD Scorecard Baseline Score: 60% iii) Operational database within Gakkum	- Series of workshops to enhance capacity of Directorate General of Law Enforcement on Environment and Forestry has been conducted. The project also compiled a series of SOP's on animal handling and a syllabus on combatting illegal wildlife trade. - The project has compiled TOR's to update ICCWC Indicator Framework, and CD Scorecard. The activities slightly postponed due to Covid-19 pandemics. The project will continue to update the scorecards in the second semester of 2020. - Related Gakkum's Information System, the project has contributed to the setup Gakkum's Operation Room and enhance the capacity of the Gakkum's staffs on advanced intelligence training on online wildlife trade. Based on online patrols, the Directorate of Forest Protection found 1.513 online wildlife trade activities between October 2017-December 2019.	i)ICCWC Indicator Framework – Midterm targets TBD ii)UNDP CD Scorecard Midterm Target:70% iii) Data sharing agreements enacted between government agencies	i)ICCWC Indicator Framework – Project Completion targets TBD ii)UNDP CD Scorecard EOP Target: 80% iii) Information System is fully operational and operated by trained staff

	2.2: - Annual number seizures/arrests - Annual number of successful prosecutions	Official national statistics on seizures/arrests and prosecutions From mid-2015 to mid-2016: The WCU facilitated law enforcement operations for 31 cases with 55 people arrested and taken to court. Of those with a known outcome, 41 were prosecuted (100% prosecution). This is for terrestrial species in Sumatra and Java.	Mid and end of project target levels have been achieved (100%). Refers to official national statistics on arrests and prosecutions of illegal wildlife trade by Directorate of Criminal Law Enforcement, DG of Law Enforcement, MoEF, for the year 2016, as the baseline, showed 51 cases of arrests and prosecuted. For the year 2019, the number of cases of arrests and prosecuted arose to 65 cases of arrests and prosecuted. It shows a 27,5% increase of the arrests from baseline, surpassed end of the project target level. Meanwhile, the number of cases prosecuted shows 65 cases or 100% cases prosecuted. The score is surely enough to surpass the end of the project target level, as requested (Ev7-LAKIP DG of Law Enforcement 2019).	Official national statistics on seizure/arrests and prosecutions >10% increase in seizures/arrests from baseline >50% cases prosecuted	Official national statistics on seizures/arrests and prosecutions >25% increase in seizures/arrests from baseline >75% cases prosecuted			
	2.3: - Annual number of joined up transnational counter-IWT operations-	No transnational operations	The midterm target has been achieved. To reach the end of the project target level, the project will conduct one transnational repatriation (for Indonesian endemic birds) from Philippines	1 transnational operation/seizure	3 transnational operations/seizures			

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
	- Annual number of seizures as a result of transnational counter-IWT operations		to Indonesia. The activity will be conducted in the second semester of 2020 (July 21, 2020).					
Outcome 3: Scaling-up improved enforcement strategy at key trade ports and connected ecosystems. Improved enforcement strategy demonstrated and scaled up at key trade ports and connected subnational regions with key ecosystems	3.1: Enforcement effectiveness at 5 key trade ports (Jakarta, Surabaya, Bitung, Belawan and Kualanamu airport), indicated by: - Annual PortMATE assessment tool scores (average score for KSDA, Customs, Port Management Authority at each port)	PortMATE Baseline scores: Surabaya (Tg Perak):17.00 Belawan: 18.67 (Jakarta, Bitung and Kualanamu to be done in Year 1)	The project has compiled ToR's to update the PortMate scores in Bitung, Surabaya, and Belawan. The activities need slightly to change, due to Covid-19 pandemics. The project will update the score in the second semester of 2020.	25% increase over baseline score	50% increase over baseline score			
	3.2: Effective enforcement of two subnational regions known to include significant wildlife trade routes, measured by:	4666 wild animals seized from 34 protected species Source: LAKIP, Gakkum 2016	Mid and end of project target levels have been achieved (100%). Based on data from Directorate of Criminal Law Enforcement, Directorate General of Law Enforcement on Environment and Forestry, Ministry of	Increasing number of cases prosecuted (c.10%)	Increasing number of settled cases on IWT by ...%			

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
	- annual number of IWT seizures at the project sites - annual number of IWT investigations leading to arrests at the project sites; - annual number of successful IWT prosecutions at the project sites		Environment and Forest showed an increasing number of cases prosecuted and settled cases on illegal wildlife trade. Referred to data from Directorate of Criminal Law Enforcement, Directorate General of Law Enforcement on Environment and Forestry, Ministry of Environment and Forestry, for the year 2016, as a baseline, showed 51 cases prosecuted. For the year 2019, the number of cases prosecuted showed 65. It is showed a 27,5% increases compared to baseline (Ev7-LAKIP DG of Law Enforcement 2019).					
Outcome 4: Knowledge Management, M&E and Gender Mainstreaming. Implementation and upscaling/replication of project approaches at national and international levels	4.1: number of project lessons documented and used by other national and international projects.	0	1. The project, with YIARI, developed an SOP for translocation, habituation, and post-release monitoring for slow loris. To learn on the slow-loris management, a Malaysian non-government organization, 1stop Borneo Wildlife,	At least 3 project lessons used by other national and international projects	At least 5 project lessons used by other national and international projects			

Project Strategy	Indicator ¹⁰	Baseline Level ¹¹	Level in 3 rd PIR (self-reported)	Midterm Target ¹²	End-of-project Target	Midterm Level & Assessment ¹³	Achievement Rating ¹⁴	Justification for Rating
is supported by effective knowledge management and gender mainstreaming			<p>conducted a learning session for habituation and post-release management. They have the plan to build a slow loris rehabilitation center in Sabah, Malaysia.</p> <p>YIARI, through microgrant funded by CIWT, also collaborates with other NGOs on the implementation of SOP for translocation, habituation, and post-release monitoring for slow loris. Animal handling resulting from law enforcement with PPS Tasikoki in North Sulawesi. While with SOCP (Sumatera Orangutan Conservation Program) in the handling and release of seized four slow lorises and two langurs (Ev6-YIARI Microgrant Final Report).</p> <p>2. To reach out to more institutions and personnel on improving knowledge of combatting illegal wildlife trade, the project has the plan to set up a knowledge management system for e-learning. For the first step, the</p>
