Background:

In accordance with UNDP and GEF M&E policies and procedures, all full- and medium-sized UNDP-supported GEF-financed projects are required to undergo a Terminal Evaluation (TE) at the end of the project. This Terms of Reference (ToR) sets out the expectations for the TE of the full sized project entitled “Enabling transboundary cooperation and integrated water resources management in the extended Drin River Basin” (PIMS 4482; $ 4M; Albania, North Macedonia and Montenegro are the Project beneficiaries) and the associated medium-sized project entitled “Enabling transboundary cooperation and integrated water resources management in the White Drin and the extended Drin Basin” (PIMS 5510; $ 1N; Kosovo is the beneficiary country) implemented through the United Nation Development Program and executed by the Global Water Partnership (GWP) Organization through Global Water Partnership Mediterranean. The two projects are operationally linked and are executed as one. The projects started on late 2015 and is in its final year of implementation.

1. Project Description

The Drin Basin is located in the southeastern part of the Balkan Peninsula. It comprises the transboundary sub-basins of the Drin and Buna/Bojana Rivers and of the Prespa, Ohrid and Skadar/Shkoder Lakes. The Drin River is the “connecting body” of the “extended” Drin Basin, linking the lakes, wetlands, rivers and other aquatic habitats into a single, yet complex, ecosystem of major importance. The water bodies and their watersheds are spread in a geographical area that includes Albania, Greece, North Macedonia, Montenegro and Kosovo[1].

The complex nature of the Drin Basin -where lakes, rivers and underground flows interact in ways hard to unravel compounded by the many and often conflicting uses of water resources and by the transboundary conditions that prevail throughout the basin- determines the high fragility of the basin ecosystems and poses serious challenges to the overall sustainability of the water resources of the basin.

The main transboundary problems in the Drin Basin[2] are:

- deterioration of water quality
- natural and regulated variability of the hydrological regime
- biodiversity degradation
- variability of the sediment transport regime.

Climate variability and change has also been recognized as a significant regional (and global) problem that influences the four priority transboundary problems.

Overall, prior to the interventions supported through the two projects, there was an absence of an overarching basin-wide policy formulation and decision-making framework grounded on scientific data and knowledge. This hindered the design of coherent strategies, legislation and regulations, and prevented the identification of investments which are aligned with the sustainable utilization of the Basin’s water resources and their integrated management.

The two Projects aim to promote joint management of the shared water resources of the transboundary Drin River Basin, including coordination mechanisms among the various sub-basin joint commissions and committees.

Each of the Projects is articulated into five -identical in content- components; they are designed to achieve the goal mentioned above, through: (i) building consensus among countries on key transboundary concerns and drivers of change, including climate variability and change, reached
through joint fact finding; (ii) facilitating the agreement on a shared vision and on a program of priority actions deemed necessary to achieve the vision; (iii) strengthening technical and institutional capacities.

The Projects are aligned in content, aims and objectives with the Drin Coordinated Action, that is the framework set by the Drin riparian countries for the implementation of the Memorandum of Understanding for the Management of the Extended Transboundary Drin Basin (Drin MoU; signed by the Ministers responsible for the management of water resources and/or environment, and high-level representatives of the Riparians[3], in Tirana, on 25 November 2011).

The Projects assist in the operationalization of the institutional structure of the Drin Coordinated Action, rendering it capable of undertaking its coordinative and executive role.

This includes:

- The **Meeting of the Parties**
- The **Drin Core Group** (DCG). This body is given the mandate to coordinate actions for the implementation of the MoU. The DCG Secretariat provides technical and administrative support to the DCG.
- Four **Expert Working Groups** (EWG): (i) Water Framework Directive implementation EWG (ii) Monitoring and Information exchange EWG (iii) Biodiversity and Ecosystem EWG (iv) Floods EWG.

The DCG has undertaken the role of the Steering Committee of the Projects.

The Projects are executed by GWP-Med with the involvement of UNECE. The budget is $4.5 for the full-size project and $1 M for the medium-sized project.

The Projects have been instrumental in enhancing cooperation among the Drin Riparians. In addition to the Strategic Action Programme that was endorsed by Ministers and high-level representatives in April 2021, there have been catalytic outcomes as a result of the project contributing to the enhancement of the political process under the Drin MoU:

- The DCG requested to initiate actions for the establishment of a Drin Joint Commission through the signing of an International Agreement. A draft international agreement text to be negotiated is being prepared.
- The DCG is becoming the reference point for a range of management actions supported by various donors and initiatives. Apart from the GEF Drin project, it is the SC of the:
  1. Part of the Austrian Development Agency (ADA) supported Project “Promoting the Sustainable Management of Natural Resources in Southeastern Europe, through the use of the Nexus approach” focusing on Drin.
  2. Adaptation Fund supported and UNDP implemented “Integrated climate-resilient transboundary flood risk management in the Drin River basin in the Western Balkans”.
- The Lake Ohrid Management Plan was adopted by both Albania and North Macedonia.
The COVID-19 pandemic and the subsequent mitigation measures taken by the beneficiary Riparians (lockdowns, curfews etc.), have adversely affected the execution of meetings, studies for which input by the representatives of institutions is necessary (e.g. provision of information and data; input for the development of studies; approval of studies; etc.) and field activities (demonstration activities, study visits, awareness activities etc.). As a response, the PCU has used internet-based means to conclude the execution of the project activities. The COVID-19 pandemic resulted in delays in the project execution but has had a small effect in its results.

2. TE Purpose

The purpose of the TE is to provide an impartial evaluation of the project in terms of its relevance, effectiveness, efficiency, impact, sustainability, overall performance, management and achievements.

The Terminal Evaluation consultant will develop a technical report on the assessment of the achievement of project results against what was expected to be achieved, and draw lessons that can both improve the sustainability of benefits from this project, and aid in the overall enhancement of UNDP programming. The TE report promotes accountability and transparency, and assesses the extent of project accomplishments.

The Terminal Evaluations for GEF-financed projects have the following complementary purposes:

- To promote accountability and transparency;
- To synthesize lessons that can help to improve the selection, design and implementation of future UNDP-supported GEF-financed initiatives; and to improve the sustainability of benefits and aid in overall enhancement of UNDP programming;
- To assess and document project results, and the contribution of these results towards achieving GEF strategic objectives aimed at global environmental benefits;
- To gauge the extent of project convergence with other priorities within the UNDP country programme, including poverty alleviation; strengthening resilience to the impacts of climate change, reducing disaster risk and vulnerability.

The main output results of the terminal evaluation process will be presented in a Steering Committee meeting that will be organized in May or June 2021.

[2] As these were identified through the Drin Transboundary Diagnostic Analysis

Description of Responsibilities:

1. TE Approach & Methodology

The TE must provide evidence-based information that is credible, reliable and useful. The Evaluation should employ a combination of both qualitative and quantitative evaluation methods and instruments. The TE methodology should include:

- Document review of all relevant documentation including the PIF, UNDP Social and Environmental Screening Procedure/SESP, Project Document, project reports and annual PIRs, project Steering Committee meetings reports, project budget revisions, national strategic and legal documents, and any other materials that the TE consultant considers useful for this evidence-based evaluation.
- Development of evaluation questions around relevance, effectiveness, efficiency and sustainability and designed for different stakeholders to be interviewed.
- The TE is expected to follow a participatory and consultative approach that ensures close engagement with the Project Team, executing partner, UNDP Regional Technical Adviser, UNDP Country Office(s)/evaluation managers, and direct beneficiaries.
- Engagement of stakeholders is vital to a successful TE. Stakeholder involvement should include interviews with stakeholders who have project responsibilities, including but not limited to:
  - The UNDP GEF Regional Technical Advisor
  - The UNDP Country Offices in Albania and in Kosovo
  - The GWP-Med being the executing agency
  - The Project Manager
  - Steering Committee members
  - Beneficiaries and stakeholders[1]
- Interviews to be conducted online due to Covid-19 restrictions. All interviews should be undertaken in full confidence and anonymity. The final evaluation report should not assign specific comments to individuals.
- Validation of key tangible outputs and interventions through available documents and reports produced for these outputs. These documents should include technical reports, brochures, and possibly pictures or videos that were taken by the project team from the field sites during the different phases of implementation.
- Other methods such as outcome mapping, online group discussions, etc.
- Data review and analysis of monitoring and other data sources and methods.
- Assurance of maximum validity, reliability of data (quality) and promote use; the TE process should ensure triangulation of the various data sources.

The specific design and methodology for the TE should emerge from consultations between the TE Consultant and the UNDP Regional Technical Advisor, UNDP Country offices in Albania and Kosovo and GWP-Med, regarding what is appropriate and feasible for meeting the TE purpose and objectives and answering the evaluation questions, given limitations of budget, time
and data. The TE Consultant must, however, use gender-responsive methodologies and tools and ensure that gender equality and women’s empowerment, as well as other cross-cutting issues and SDGs are incorporated into the TE report.

The final methodological approach including interview schedule; data to be used in the evaluation etc. should be clearly outlined in the inception report and be fully discussed and agreed between UNDP Country offices in Albania and Kosovo, GWP-Med and the TE Consultant.

The final TE report should describe the full TE approach taken and the rationale for the approach making explicit the underlying assumptions, challenges, strengths and weaknesses about the methods and approach of the evaluation.

As of 11 March 2020, the World Health Organization (WHO) declared COVID-19 a global pandemic as the new coronavirus rapidly spread to all regions of the world. A set of mitigation measures including lockdowns, curfews, travel bans etc., were applied and some continue to be in place. Most of the consultations and trainings are being conducted through online platforms. The TE Consultant should develop a methodology that takes this into account and conduct the TE virtually and remotely, including the use of remote interview methods and extended desk reviews, data analysis, surveys and evaluation questionnaires. This should be detailed in the TE Inception Report and agreed with the Commissioning Unit.

1. Detailed Scope of the TE

The TE Consultant will first conduct a document review of project documents (i.e. PIF, Project Document, project reports and annual PIRs, project Steering committee meetings reports, project budget revisions, etc.) provided by the Project Team and UNDP. Then she/he will participate in an TE inception workshop to clarify her/his understanding of the objectives and methods of the TE, producing the TE inception report thereafter. The TE Consultant will then organize a series of interviews with relevant stakeholders.

The TE will assess project performance against expectations set out in the project’s Logical Framework/Results Framework (as per revisions by the Steering Committee; see TOR Annex A). The TE will assess results according to the criteria outlined in the Guidance for TEs of UNDP-supported GEF-financed Projects (http://web.undp.org/evaluation/guideline/documents/GEF/TE_GuidanceforUNDP-supportedGEF-financedProjects.pdf).

The Findings section of the TE report will cover the topics listed below.

A full outline of the TE report’s content is provided in ToR Annex C.

The asterisk “(“ indicates criteria for which a rating is required.
Findings

1. Project Design/Formulation
   - National priorities and country drivenness
   - Analysis of Results Framework: project logic and strategy, indicators
   - Gender equality and women’s empowerment
   - Social and Environmental Safeguards
   - Assumptions and Risks
   - Lessons from other relevant projects (e.g. same focal area) incorporated into project design
   - Planned stakeholder participation
   - Linkages between project and other interventions within the sector
   - Management arrangements

1. Project Implementation
   - Adaptive management (changes to the project design and project outputs during implementation)
   - Actual stakeholder participation and partnership arrangements
   - Project Finance and Co-finance
   - Monitoring & Evaluation: design at entry (*), implementation (*), and overall assessment of M&E (*)
   - Implementing Agency (UNDP) (*) and Executing Agency (*), overall project oversight/implementation and execution (*)
   - Risk Management, including Social and Environmental Standards

1. Project Results
   - Assess the achievement of outcomes against indicators by reporting on the level of progress for each objective and outcome indicator at the time of the TE and noting final achievements
   - Relevance (*), Effectiveness (*), Efficiency (*) and overall project outcome (*)
   - Sustainability: financial (*), socio-political (*), institutional framework and governance (*), environmental (*), overall likelihood of sustainability (*)
   - Country ownership
   - Gender equality and women’s empowerment
• Cross-cutting issues (improved governance, climate change, capacity development, South-South cooperation, knowledge management)
• GEF Additionality
• Catalytic Role / Replication Effect
• Progress to impact

1. Main Findings, Conclusions, Recommendations and Lessons Learned

• The TE Consultant will include a summary of the main findings of the TE report. Findings should be presented as statements of fact that are based on analysis of the data.
• The section on conclusions will be written in light of the findings. Conclusions should be comprehensive and balanced statements that are well substantiated by evidence and logically connected to the TE findings. They should highlight the strengths, weaknesses and results of the project, respond to key evaluation questions and provide insights into the identification of and/or solutions to important problems or issues pertinent to project beneficiaries, UNDP and the GEF, including issues in relation to gender equality and women’s empowerment.
• Recommendations should provide concrete, practical, feasible and targeted recommendations directed to the intended users of the evaluation about what actions to take and decisions to make. The recommendations should be specifically supported by the evidence and linked to the findings and conclusions around key questions addressed by the evaluation.
• The TE report should also include lessons that can be taken from the evaluation, including best and worst practices in addressing issues relating to relevance, performance and success that can provide knowledge gained from the particular circumstance (programmatic and evaluation methods used, partnerships, financial leveraging, etc.) that are applicable to other GEF and UNDP interventions. When possible, the TE Consultant should include examples of good practices in project design and implementation.
• It is important for the conclusions, recommendations and lessons learned of the TE report to include results related to gender equality and empowerment of women.

The TE report will include an Evaluation Ratings Table, as shown in the ToR Annex.

1. Expected Outputs and Deliverables

The TE Consultant shall prepare and submit:

• TE Inception Report: TE Consultant clarifies objectives and methods of the TE no later than 2 weeks before the TE mission/interviews. TE Consultant submits the Inception
Report to the Commissioning Unit and project management. Approximate due date: 15 May 2021

- Presentation: TE Consultant presents initial findings to project management and the Commissioning Unit at the end of the TE mission. Approximate due date: 25 May 2021
- Draft TE Report: TE Consultant submits full draft report with annexes within 2 weeks of the end of the TE mission. Approximate due date: 8 June 2021
- Final TE Report*: TE Consultant submits revised report, detailing how all received comments have (and have not) been addressed in the final TE report, to the Commissioning Unit within 1 week of receiving UNDP comments on draft. Approximate due date: 1 July 2021.

The final TE report must be in English.

The final TE report will be quality assessed by the UNDP Independent Evaluation Office (IEO). Details of the IEO’s quality assessment of decentralized evaluations can be found in Section 6 of the UNDP Evaluation Guidelines.[2]

1. **TE Arrangements**

The principal responsibility for managing the TE resides with the Commissioning Unit. The Commissioning Unit for this project’s TE is UNDP Country Office in Albania in coordination with UNDP Country Office in Kosovo and UNDP IRH.

The Commissioning Unit will contract the consultant. The Project Team will be responsible for liaising with the TE Consultant to provide all relevant documents and set up stakeholder interviews.

1. **Duration of the Work**

The total duration of the TE will be approximately 30 working days over during May-July 2021

- **23 April 2021:** Application closes
- **15 May 2021:** Finalization and Validation of TE Inception Report- latest start of TE interviews
- **21 May 2021:** TE stakeholder meetings, and interviews
- **25 May 2021:** Presentation of initial findings
- **8 June 2021:** Preparation of draft TE report
- **9 June 2021:** Circulation of draft TE report for comments
• **11 June 2021**: Incorporation of comments on draft TE report into Audit Trail & finalization of TE report
• **25 June 2021**: Preparation & Issue of Management Response
• **1 July 2021**: Concluding Project SC meeting to present the TE findings
• **1 July 2021**: Expected date of full TE completion

The expected date start date of contract is **1 May 2021**.

[1] including but not limited to the Water Agency, Albania; Ministry of Environment, Albania; Ministry of Environment & Physical Planning, North Macedonia; Ministry of Environment & Energy, Greece; Kosovo* Environmental Protection Agency, Ministry of Environment & Spatial Planning, Kosovo*; Ministry of Environment & Spatial Planning Ministry of Sustainable; Development & Tourism, Montenegro Ministry of Agriculture and Rural Development, Montenegro, Municipality of Shkodra, Municipality of Ohrid, Municipality of Rahovec; project stakeholders, academia, local government and CSOs, etc.

**Competencies**:

**Corporate competencies:**

- Promotes the vision, mission, and strategic goals of UNDP;
- Displays cultural, gender, religion, race, nationality and age sensitivity and adaptability;
- Treats all people fairly without favouritism;
- Fulfils all obligations to gender sensitivity and zero tolerance for sexual harassment.

**Functional competencies:**

- Excellent communication skills
- Demonstrable analytical skills

**Qualifications**:

The evaluator cannot have participated in the project preparation, formulation and/or implementation (including the writing of the project document), must not have conducted this project’s Mid-Term Review and should not have a conflict of interest with the project’s related activities.

The selection of evaluators will be aimed at maximizing the overall “team” qualities in the following areas:
Education

- At least Master’s degree in water resources management, applied water resources evaluation, environmental science or management, or other closely related field;

Experience

- Relevant experience with results-based management evaluation methodologies;
- Experience applying SMART indicators and reconstructing or validating baseline scenarios;
- Competence in adaptive management, as applied to International Waters transboundary fresh water systems;
- Experience working with the project evaluations;
- Experience working in South East Europe;
- Work experience in resources management and international waters for at least 10 years;
- Demonstrated experience with International Waters projects;
- Demonstrated understanding of issues related to gender and International Waters is an asset;
- Excellent communication skills;
- Demonstrable analytical skills;
- Project evaluation/review experience within United Nations system will be considered an asset;
- Experience with implementing evaluations remotely will be considered an asset.

Language

- Fluency in written and spoken English.

1. **Evaluator Ethics**

The TE Consultant will be held to the highest ethical standards and is required to sign a code of conduct upon acceptance of the assignment. This evaluation will be conducted in accordance with the principles outlined in the UNEG ‘Ethical Guidelines for Evaluation’. The evaluator must safeguard the rights and confidentiality of information providers, interviewees and stakeholders through measures to ensure compliance with legal and other relevant codes governing collection of data and reporting on data. The evaluator must also ensure security of collected information before and after the evaluation and protocols to ensure anonymity and confidentiality of sources of information where that is expected. The information knowledge and data gathered in the evaluation process must also be solely used for the evaluation and not for other uses without the express authorization of UNDP and partners.

1. **Payment Schedule**
• 20% payment upon satisfactory delivery of the final TE Inception Report and approval by
the Commissioning Unit
• 40% payment upon satisfactory delivery of the draft TE report to the Commissioning
Unit
• 40% payment upon satisfactory delivery of the final TE report and approval by the
Commissioning Unit and RTA (via signatures on the TE Report Clearance Form)

Criteria for issuing the final payment of 40%

• The final TE report includes all requirements outlined in the TE TOR and is in
accordance with the TE guidance.
• The final TE report is clearly written, logically organized, and is specific for this project
(i.e. text has not been cut & pasted from other MTR reports).

Application Procedure

Interested applicants are advised to carefully study all sections of this ToRs and ensure that they
meet the general requirements as well as specific qualifications described. Incomplete
applications will not be considered. Please make sure you have provided all requested materials.

The application should contain:

• **Cover letter** explaining why you are the most suitable candidate for the advertised
position. Please paste the letter into the "Resume and Motivation" section of the
electronic application.
• **Letter to UNDP Confirming Interest and Availability**–please fill in the attached
form. [Download Here](#) (kindly use FireFox Browser)
• **Filled P11 form** including past experience in similar projects and contact details of
referees, please upload the P11 instead of your CV. [Download Here](#) (kindly use FireFox
Browser)
• **Financial Proposal in USD**– Specifying a **Total Lump Sum in USD** for the tasks
specified in this announcement. Please note that the financial proposal is all-inclusive and
shall take into account various expenses incurred by the consultant during the contract
period (e.g. fee and any other relevant expenses related to the performance of services).

*Kindly note that Letter to UNDP Confirming Interest and Availability and Financial
Proposal are two separate documents and should be both part of your application.*

**How to Submit the Application:**

To submit your application online, please follow the steps below:
Download and complete the UN Personal History Form (P11) for Service Contracts (SCs) and Individual Contracts (ICs);

Merge your UN Personal History Form (P11) for Service Contracts (SCs) and Individual Contracts (ICs), Financial Proposal Letter to UNDP Confirming Interest and Availability and cover letter into a single file. The system does not allow for more than one attachment to be uploaded;

Click on the Job Title (job vacancy announcement);

Click “Apply Now” button, fill in necessary information on the first page, and then click “Submit Application;”

Upload your application/single file as indicated above with the merged documents (underlined above);

You will receive an automatic response to your email confirming receipt of your application by the system.

Incomplete applications will not be considered. Please make sure you have provided all requested materials

*Please note that the financial proposal is all-inclusive and shall take into account various expenses incurred by the consultant/contractor during the contract period (e.g. fee, health insurance, vaccination and any other relevant expenses related to the performance of services). Travel costs to and from duty station must be included in the financial proposal.

Payments will be made only upon confirmation of UNDP on delivering on the contract obligations in a satisfactory manner.

Individual Consultants are responsible for ensuring they have vaccinations/inoculations when travelling to certain countries, as designated by the UN Medical Director. Consultants are also required to comply with the UN security directives set forth under dss.un.org

General Terms and conditions as well as other related documents can be found under: http://on.undp.org/t7fJs.

Due to large number of applications we receive, we are able to inform only the successful candidates about the outcome or status of the selection process.

UNDP is committed to achieving workforce diversity in terms of gender, nationality and culture. Individuals from minority groups, indigenous groups and persons with disabilities are equally encouraged to apply. All applications will be treated with the strictest confidence.

| Reports of meetings of Expert Working Group; Assessment report regarding feasibility for insurance |
| [Facilitate cooperation among Drin Riparians for the management of flood risk implementing approaches new to the area.] |
| A transboundary monitoring network is tested, capacitating Drin Riparians to replicate this in the rest of the Drin’s sub-basins. |
| A transboundary monitoring network is tested, capacitating Drin Riparians to replicate this in the rest of the Drin’s sub-basins. |
| Transboundary monitoring network and results of testing report including related maps. |
**Outcome 6.** Public support and participation to IWRM and joint multi-country management enhanced through stakeholder involvement and gender mainstreming

1. Stakeholder Involvement and Gender Mainstreaming Strategy is defined and adopted by Drin Core Group.

Level of public participation in decision-making is unclear in all countries, with efforts being made to introduce/implement legislation leading to increased stakeholder involvement and public participation. Gender issues not yet considered.

Drin Core Group approval of Stakeholder Involvement and Gender Mainstreaming Strategies.

Two Documents containing the Strategies and evidence of adoption by DCG.

Reports reflecting participatory approach and gender equity in project events and processes.

**Outcome 7.** Political awareness at all levels and private sector participation strengthened through higher visibility of the project's developments and targeted outreach initiatives

1. Information, Communication and Outreach Strategy is prepared and implemented.

Public awareness of natural resource sustainability issues and of water governance and management is generally scarce.

Communication activities support the preparation and adoption of the TDA and the SAP.

All the project's main events, findings and achievements recorded and disseminated through media events and ICT.

Project's active participation to IW LEARN activities and events using at least 1% of GEF grant.

Website documents outreach activities.

Communication activities (tailored made communication to targeted stakeholders including emails, publications etc.).

Project results and achievements presented at major international fora (WWF, IWC, WWW, etc.), project website established in accordance to IWLEARN standards, experience notes produced, participation of project representatives in IW biannual conferences.
## ToR Annex B: Project Information Package to be reviewed by TE team

<table>
<thead>
<tr>

<td>List of contracts and procurement items over ~US$10,000 (i.e. organizations or companies contracted for project outputs, etc., except in cases of confidential information)</td>
</tr>
<tr>
<td>1.</td>
<td>List of related projects/initiatives contributing to project objectives approved/started after GEF project approval (i.e. any leveraged or “catalytic” results)</td>
</tr>
<tr>
<td>1.</td>
<td>Data on relevant project website activity – e.g. number of unique visitors per month, number of page views, etc. over relevant time period, if available</td>
</tr>
</tbody>
</table>

| 1. | List/map of demonstration projects’ sites |
| 1. | List and contact details for project staff, key project stakeholders, including Project Board members, RTA, Project Team members, and other partners to be consulted |
| 1. | Project deliverables that provide documentary evidence of achievement towards project outcomes |

**ToR Annex C: Content of the TE report**

1. **Opening page:**
   - *Title of the GEF financed project*
   - *GEF project ID#s.*
   - *Evaluation time frame and date of evaluation report*
   - *Region and countries included in the project*
   - *GEF Operational Program/Strategic Program*
   - *Implementing Partner and other project partners*
   - *Evaluation team members*
   - *Acknowledgements*

1. **Executive Summary**
   - *Project Summary Table*
   - *Project Description (brief)*
   - *Evaluation Rating Table*
   - *Summary of conclusions, recommendations and lessons*

1. **Acronyms and Abbreviations (See: UNDP Editorial Manual[1])**

1. **Introduction**
   - *Purpose of the evaluation*
   - *Scope & Methodology*
   - *Structure of the evaluation report*

1. **Project description and development context**
   - *Project start and duration*
   - *Problems that the project sought to address*
   - *Immediate and development objectives of the project*
Baseline Indicators established
Main stakeholders
Expected Results

1. Findings (In addition to a descriptive assessment, all criteria marked with (*) must be rated [2])
   1. Project Design / Formulation

   Analysis of LFA/Results Framework (Project logic /strategy; Indicators)
   Assumptions and Risks
   Lessons from other relevant projects (e.g., same focal area) incorporated into project design
   Planned stakeholder participation
   Replication approach
   UNDP comparative advantage
   Linkages between project and other interventions within the sector
   Management arrangements
      1. Project Implementation
   Adaptive management (changes to the project design and project outputs during implementation)
   Partnership arrangements (with relevant stakeholders involved in the country/region)
   Feedback from M&E activities used for adaptive management

   Project Finance:
   Monitoring and evaluation: design at entry and implementation (*)
   UNDP and Implementing Partner implementation / execution (*) coordination, and operational issues
      1. Project Results
   Overall results (attainment of objectives) (*)
   Relevance (*)
   Effectiveness & Efficiency (*)
   Country ownership
   Mainstreaming
   Sustainability (*)
   Impact

1. Conclusions, Recommendations & Lessons

   Corrective actions for the design, implementation, monitoring and evaluation of the project
   Actions to follow up or reinforce initial benefits from the project
• Proposals for future directions underlining main objectives
• Best and worst practices in addressing issues relating to relevance, performance and success

1. Annexes
• ToR
• Itinerary (if applicable)
• List of persons interviewed
• Summary of interviews
• List of documents reviewed
• Evaluation Question Matrix
• Questionnaire used and summary of results

1. Evaluation Consultant Agreement Form

ToR Annex D: Evaluation Criteria Matrix template

<table>
<thead>
<tr>
<th>Evaluative Criteria Questions</th>
<th>Indicators</th>
<th>Sources</th>
<th>Methodology</th>
</tr>
</thead>
<tbody>
<tr>
<td>Relevance: How does the project relate to the main objectives of the GEF Focal area, and to the environment and development priorities at the local, regional and national level? (include evaluative questions)</td>
<td>(i.e. relationships established, level of coherence between project design and implementation approach, specific activities conducted, quality of risk mitigation strategies, etc.)</td>
<td>(i.e. project documentation, national policies or strategies, websites, project staff, project partners, data collected throughout the TE mission, etc.)</td>
<td>(i.e. document analysis, data analysis, interviews with project staff, interviews with stakeholders, etc.)</td>
</tr>
</tbody>
</table>

Effectiveness: To what extent have the expected outcomes and objectives of the project been achieved?

Efficiency: Was the project implemented efficiently, in line with international and national norms and standards?
Sustainability: To what extent are there financial, institutional, socio-political, and/or environmental risks to sustaining long-term project results?

Gender equality and women’s empowerment: How did the project contribute to gender equality and women’s empowerment?

Impact: Are there indications that the project has contributed to, or enabled progress toward reduced environmental stress and/or improved ecological status?

(Expand the table to include questions for all criteria being assessed: Monitoring & Evaluation, UNDP oversight/implementation, Implementing Partner Execution, cross-cutting issues, etc.)

**ToR Annex E: UNEG Code of Conduct for Evaluators**

Independence entails the ability to evaluate without undue influence or pressure by any party (including the hiring unit) and providing evaluators with free access to information on the evaluation subject. Independence provides legitimacy to and ensures an objective perspective on evaluations. An independent evaluation reduces the potential for conflicts of interest which might arise with self-reported ratings by those involved in the management of the project being evaluated. Independence is one of ten general principles for evaluations (together with internationally agreed principles, goals and targets: utility, credibility, impartiality, ethics, transparency, human rights and gender equality, national evaluation capacities, and professionalism).

**ToR Annex F: TE Rating Scales & Evaluation Ratings Table**

<table>
<thead>
<tr>
<th>Monitoring &amp; Evaluation Ratings Scale</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 = Highly Satisfactory (HS)</td>
<td>There were no shortcomings; quality of M&amp;E was as expected</td>
</tr>
<tr>
<td>5 = Satisfactory (S)</td>
<td>There were minor shortcomings; quality of M&amp;E met expectations</td>
</tr>
<tr>
<td>4 = Moderately Satisfactory (MS)</td>
<td>There were moderate shortcomings; quality of M&amp;E more or less met expectations</td>
</tr>
<tr>
<td>3 = Moderately Unsatisfactory (MU)</td>
<td>There were significant shortcomings; quality of M&amp;E was somewhat lower than expected</td>
</tr>
<tr>
<td>2 = Unsatisfactory (U)</td>
<td>There were major shortcomings; quality of M&amp;E was substantially lower than expected</td>
</tr>
<tr>
<td>Rating</td>
<td>Description</td>
</tr>
<tr>
<td>--------</td>
<td>-------------</td>
</tr>
<tr>
<td>6 = Highly Satisfactory (HS)</td>
<td>There were no shortcomings; quality of implementation/execution exceeded expectations.</td>
</tr>
<tr>
<td>5 = Satisfactory (S)</td>
<td>There were no or minor shortcomings; quality of implementation/execution met expectations.</td>
</tr>
<tr>
<td>4 = Moderately Satisfactory (MS)</td>
<td>There were some shortcomings; quality of implementation/execution more or less met expectations.</td>
</tr>
<tr>
<td>3 = Moderately Unsatisfactory (MU)</td>
<td>There were significant shortcomings; quality of implementation/execution was somewhat lower than expected.</td>
</tr>
<tr>
<td>2 = Unsatisfactory (U)</td>
<td>There were major shortcomings; quality of implementation/execution was substantially lower than expected.</td>
</tr>
<tr>
<td>1 = Highly Unsatisfactory (HU)</td>
<td>There were severe shortcomings in quality of implementation/execution.</td>
</tr>
<tr>
<td>Unable to Assess (UA)</td>
<td>The available information does not allow an assessment of the quality of implementation/execution.</td>
</tr>
</tbody>
</table>

**Outcome Ratings Scale - Relevance, Effectiveness, Efficiency**

<table>
<thead>
<tr>
<th>Rating</th>
<th>Description</th>
<th>Implications</th>
</tr>
</thead>
<tbody>
<tr>
<td>6 = Highly Satisfactory (HS)</td>
<td>Level of outcomes achieved clearly exceeds expectations.</td>
<td></td>
</tr>
<tr>
<td>5 = Satisfactory (S)</td>
<td>Level of outcomes achieved was as expected.</td>
<td></td>
</tr>
<tr>
<td>4 = Moderately Satisfactory (MS)</td>
<td>Level of outcomes achieved more or less as expected.</td>
<td></td>
</tr>
<tr>
<td>3 = Moderately Unsatisfactory (MU)</td>
<td>Level of outcomes achieved somewhat lower than expected.</td>
<td></td>
</tr>
<tr>
<td>2 = Unsatisfactory (U)</td>
<td>Level of outcomes achieved substantially lower than expected.</td>
<td></td>
</tr>
<tr>
<td>1 = Highly Unsatisfactory (HU)</td>
<td>Only a negligible level of outcomes achieved.</td>
<td></td>
</tr>
<tr>
<td>Unable to Assess (UA)</td>
<td>The available information does not allow an assessment of the level of outcome achievements.</td>
<td></td>
</tr>
</tbody>
</table>
### Sustainability Ratings Scale

<table>
<thead>
<tr>
<th>Ratings</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 = Likely (L)</td>
<td>There are little or no risks to sustainability</td>
</tr>
<tr>
<td>3 = Moderately Likely (ML)</td>
<td>There are moderate risks to sustainability</td>
</tr>
<tr>
<td>2 = Moderately Unlikely (MU)</td>
<td>There are significant risks to sustainability</td>
</tr>
<tr>
<td>1 = Unlikely (U)</td>
<td>There are severe risks to sustainability</td>
</tr>
<tr>
<td>Unable to Assess (UA)</td>
<td>Unable to assess the expected incidence of risks to sustainability</td>
</tr>
</tbody>
</table>

### Evaluation Ratings Table

- Monitoring & Evaluation (M&E)
  - M&E design at entry
  - M&E Plan Implementation
  - Overall Quality of M&E
    - Implementation & Execution
    - Quality of UNDP Implementation/Oversight
    - Quality of Implementing Partner Execution
    - Overall quality of Implementation/Execution
  - Assessment of Outcomes
    - Relevance
    - Effectiveness
    - Efficiency
  - Overall Project Outcome Rating
  - Sustainability
    - Financial resources
    - Socio-political/economic
    - Institutional framework and governance
    - Environmental
  - Overall Likelihood of Sustainability

### Co-financing table*

[3] Outcomes, Effectiveness, Efficiency, M&E, I&E Execution, Relevance are rated on a 6-point rating scale: 6 = Highly Satisfactory (HS), 5 = Satisfactory (S), 4 = Moderately Satisfactory (MS), 3 = Moderately Unsatisfactory (MU), 2 = Unsatisfactory (U), 1 = Highly Unsatisfactory (HU). Sustainability is rated on a 4-point scale: 4 = Likely (L), 3 = Moderately Likely (ML), 2 = Moderately Unlikely (MU), 1 = Unlikely (U)
