Dear Saron,

The revised TE date is set for January 24, 2023, three months before the project's revised closing date. We can't change the dates because they've already been approved by the donor. Please keep in mind that this date, January 24, 2023, is the TE completion date. If you want to complete the TE in November 2022, that is acceptable from our side, but we don't need to change the dates on PIMS +.

BR
Mahlet

Dear Mahlet,

This is a kind request of cooperation to make the terminal evaluation time for Highlands project to start on November 2022 and end date February 2023. If anything, I need to do please let me know.
Thank you in advance!

With kind regards,
Saron

Dear Berhanu,

Thank you for your follow up.

Dear Saron,
Please advise Mahlet to change the Highlands project Terminal Evaluation to start on November 2022 and end date February 2023. Once completed please send the PIMS screenshot to Berhanu.

Best regards,
Wubua

Dear Wubua,

As you have explained during the last PMT, CCA growth implementing CRGE plans in highland areas project has got no-cost extension up to April 2023. Therefore, we need to request RSC to reschedule the evaluation completion date to Feb. 2023. We need to start the process six month before the no-cost extension, November 2022. And as you know GEF focal clearance and PMIS screenshot are required for rescheduling.

Kindly communicate with the GEF focal for clearance and PMIS screenshot.

Best regards,

Berhanu
