Annex XI: GEF Core Indicators (Annexed in a separate file)

Terrestrial protected areas created or under improved management for conservation and sustainable use (Million Hectares) Marine protected areas created or under improved management for conservation and sustainable use (Million Hectares) Area of land restored (Million Hectares) Area of landscapes under improved practices (excluding protected areas)(Million Hectares) Area of marine habitat under improved practices (excluding protected areas) (Million Hectares)	610,390 ha 12,430 ha
conservation and sustainable use (Million Hectares) Area of land restored (Million Hectares) Area of landscapes under improved practices (excluding protected areas)(Million Hectares) Area of marine habitat under improved practices (excluding protected areas) (Million Hectares)	12,430 ha
Area of landscapes under improved practices (excluding protected areas)(Million Hectares) Area of marine habitat under improved practices (excluding protected areas) (Million Hectares)	
areas)(Million Hectares) Area of marine habitat under improved practices (excluding protected areas) (Million Hectares)	
areas) (Million Hectares)	
T + 1	
Total area under improved management (Million Hectares)	
Greenhouse Gas Emissions Mitigated (million metric tons of CO2e)	
Number of shared water ecosystems (fresh or marine) under new or improved cooperative management	
Globally over-exploited marine fisheries moved to more sustainable levels (thousand metric tons)(Percent of fisheries, by volume)	
Reduction, disposal/destruction, phase out, elimination and avoidance of chemicals of global concern and their waste in the environment and in processes, materials and products (thousand metric tons of toxic chemicals reduced) Reduction, avoidance of emissions of POPs to air from point and non-point sources (grams of toxic equivalent gTEQ) Number of direct beneficiaries disaggregated by gender as co-benefit of GEF investment	
	improved cooperative management Globally over-exploited marine fisheries moved to more sustainable levels (thousand metric tons)(Percent of fisheries, by volume) Reduction, disposal/destruction, phase out, elimination and avoidance of chemicals of global concern and their waste in the environment and in processes, materials and products (thousand metric tons of toxic chemicals reduced) Reduction, avoidance of emissions of POPs to air from point and non-point sources (grams of toxic equivalent gTEQ) Number of direct beneficiaries disaggregated by gender as co-benefit of
