Evaluation Recommendation 1: Ensure a seamless transition between the current and any future programme.

Management Response:

The smooth transition from one phase of the programme to the next one is already achieved by the recent signature of the contribution agreement with the EU.

Evaluation Recommendation 2: Prepare a log- or Results Framework as part of the project documents. Ensure it reflects practical links between outputs and outcomes.

Management Response:

A detailed results and resource framework, including the log-frame approach was development as part of the package of documents for CBM4. Clear links between activities, inputs, results at outputs and outcome levels provided. Less ambition in setting the outcome level targets with measurable indicators was followed as recommended. No further action required.

**Evaluation Recommendation:** Explore the potential for longer-term grant contracts, possibly through calls for proposals. This will permit further development and strengthening of CSA programs and opportunities for social entrepreneurship.
