INDIVIDUAL CONSULTANT PROCUREMENT NOTICE

Date: 24 April 2015

Country: Suriname

Description of the assignment: International Consultant – Terminal Evaluation (TE) of the Suriname Coastal Protected Area Management (PIMS 4370)

Project name: Suriname Coastal Protected Area Management

Period of assignment/services (if applicable): 25 working days - in the period 08 May – 30 June 2015 (non-consecutive), with at least 13 working days in Suriname.

The applicant is requested to submit a financial proposal (quotation) accompanied by a resume (CV) and P11 history form to the following email address registry.sr@undp.org no later than 5 May 2015.

Any request for clarification must be sent in writing, or by standard electronic communication to the address or e-mail indicated above. The Procurement unit will respond in writing or by standard electronic mail and will send written copies of the response, including an explanation of the query without identifying the source of inquiry, to all consultants.

TERMINAL EVALUATION TERMS OF REFERENCE

INTRODUCTION

In accordance with UNDP and GEF M&E policies and procedures, all full and medium-sized UNDP support GEF financed projects are required to undergo a terminal evaluation upon completion of implementation. These terms of reference (TOR) sets out the expectations for a Terminal Evaluation (TE) of the Suriname Coastal Protected Area Management (PIMS 4370)

The essentials of the project to be evaluated are as follows:

**OBJECTIVE AND SCOPE**

The project was designed to: *Safeguard Suriname’s globally significant coastal biodiversity. The project objective is to promote the conservation of biodiversity through improved management of protected areas along the nation’s western coast. The objective will be achieved through two components: (1) improving the management effectiveness and efficiency of coastal protected areas; and (2) increasing and diversifying coastal protected area funding.*

The TE will be conducted according to the guidance, rules and procedures established by UNDP and GEF as reflected in the UNDP Evaluation Guidance for GEF Financed Projects.

The objectives of the evaluation are to assess the achievement of project results, and to draw lessons that can both improve the sustainability of benefits from this project, and aid in the overall enhancement of UNDP programming.

**EVALUATION APPROACH AND METHOD**

An overall approach and method\(^1\) for conducting project terminal evaluations of UNDP supported GEF financed projects has developed over time. The evaluator is expected to frame the evaluation effort using the criteria of *relevance, effectiveness, efficiency, sustainability, and impact*, as defined and explained in the UNDP Guidance for Conducting Terminal Evaluations of UNDP-supported, GEF-financed Projects. A set of questions covering each of these criteria have been drafted and are included with this TOR (*Annex C*). The evaluator is expected to amend, complete and submit this matrix as part of an evaluation inception report, and shall include it as an annex to the final report.

The evaluation must provide evidence-based information that is credible, reliable and useful. The evaluator is expected to follow a participatory and consultative approach ensuring close engagement with government partners.

counterparts, in particular the GEF operational focal point, UNDP Country Office, project team, UNDP GEF Technical Adviser based in the region and key stakeholders. The evaluator is expected to conduct a field mission to Suriname, including the following project sites Bigi Pan, North Coronie and North Saramacca Multiple Use Management Area’s (MUMA’s). Interviews will be held with the following organizations and individuals at a minimum: Ministry of Physical, Planning land Forest Management, Ministry of Agriculture, Animal Husbandry and Fisheries, Districts Commissioners of Coronie, Nw. Nickerie and Saramacca.

The evaluator will review all relevant sources of information, such as the project document, project reports – including Annual APR/PIR, project budget revisions, midterm review, progress reports, GEF focal area tracking tools, project files, national strategic and legal documents, and any other materials that the evaluator considers useful for this evidence-based assessment. A list of documents that the project team will provide to the evaluator for review is included in Annex B of this Terms of Reference.

EVALUATION CRITERIA & RATINGS

An assessment of project performance will be carried out, based against expectations set out in the Project Logical Framework/Results Framework (Annex A), which provides performance and impact indicators for project implementation along with their corresponding means of verification. The evaluation will at a minimum cover the criteria of: relevance, effectiveness, efficiency, sustainability and impact. Ratings must be provided on the following performance criteria. The completed table must be included in the evaluation executive summary. The obligatory rating scales are included in Annex D.

PROJECT FINANCE / COFINANCE

The Evaluation will assess the key financial aspects of the project, including the extent of co-financing planned and realized. Project cost and funding data will be required, including annual expenditures. Variances between planned and actual expenditures will need to be assessed and explained. Results from recent financial audits, as available, should be taken into consideration. The evaluator(s) will receive assistance from the Country Office (CO) and Project Team to obtain financial data in order to complete the co-financing table below, which will be included in the terminal evaluation report.

UNDP supported GEF financed projects are key components in UNDP country programming, as well as regional and global programmes. The evaluation will assess the extent to which the project was successfully mainstreamed with other UNDP priorities, including poverty alleviation, improved governance, the prevention and recovery from natural disasters, and gender.

**IMPACT**

The evaluators will assess the extent to which the project is achieving impacts or progressing towards the achievement of impacts. Key findings that should be brought out in the evaluations include whether the project has demonstrated: a) verifiable improvements in ecological status, b) verifiable reductions in stress on ecological systems, and/or c) demonstrated progress towards these impact achievements.²

**CONCLUSIONS, RECOMMENDATIONS & LESSONS**

The evaluation report must include a chapter providing a set of conclusions, recommendations and lessons.

**IMPLEMENTATION ARRANGEMENTS**

The principal responsibility for managing this evaluation resides with the UNDP CO in Suriname. The UNDP CO will contract the evaluators and ensure the timely provision of per diems and travel arrangements within the country for the evaluation team. The Project Team will be responsible for liaising with the Evaluators team to set up stakeholder interviews, arrange field visits, coordinate with the Government etc.

**EVALUATION TIMEFRAME**

The total duration of the evaluation will be 25 days according to the following plan:

**EVALUATION DELIVERABLES**

² A useful tool for gauging progress to impact is the Review of Outcomes to Impacts (ROtI) method developed by the GEF Evaluation Office: [ROTI Handbook 2009](#)
The evaluation team is expected to deliver the following:

<td>Sent to CO for uploading to UNDP ERC.</td>
</tr>
</tbody>
</table>

*When submitting the final evaluation report, the evaluator is required also to provide an 'audit trail', detailing how all received comments have (and have not) been addressed in the final evaluation report.

**TEAM COMPOSITION**

The evaluation team will be composed of (1 international evaluators). The consultants shall have prior experience in evaluating similar projects. Experience with GEF financed projects is an advantage. (If the team has more than 1 evaluator, one will be designated as the team leader and will be responsible for finalizing the report). The evaluators selected should not have participated in the project preparation and/or implementation and should not have conflict of interest with project related activities.

The Team members must present the following qualifications:

- Master’s degree or higher in Natural Resource Management, environmental management, socio-economics field or other related field
- Minimum 7 years of relevant professional experience
- Substantial knowledge in the targeted focal area
- At least 5 years of recent experience with results-based monitoring and evaluation methodologies
- At least 5 years’ experience applying participatory monitoring approaches
- At least 3 years’ experience applying SMART indicators and reconstructing or validating baseline scenarios
- Recent knowledge of UNDP’s results-based evaluation policies and procedures
- Recent knowledge of the GEF Monitoring and Evaluation Policy
- Good command of the English language (oral and written)
- Knowledgeable of the Suriname context and national circumstances is an advantage
- Good command of the Dutch language is an advantage

**EVALUATOR ETHICS**
Evaluation consultants will be held to the highest ethical standards and are required to sign a Code of Conduct (Annex E) upon acceptance of the assignment. UNDP evaluations are conducted in accordance with the principles outlined in the UNEG ‘Ethical Guidelines for Evaluations’.

**APPLICATION PROCESS**

Applicants are requested to email to registry.sr@undp.org by 5th May 2015. Individual consultants are invited to submit applications together with their CV, P11 history form and price offer (quotation) indicating the total costs of the assignment (including daily fee, per diem and travel costs) for this position. The application should contain a current and complete C.V. in English with indication of the e-mail and phone contact.

UNDP applies a fair and transparent selection process that will take into account the competencies/skills of the applicants as well as their financial proposals. Qualified women and members of social minorities are encouraged to apply.

ANNEX E: EVALUATION CONSULTANT CODE OF CONDUCT AND AGREEMENT FORM

Evaluators:

1. Must present information that is complete and fair in its assessment of strengths and weaknesses so that decisions or actions taken are well founded.
2. Must disclose the full set of evaluation findings along with information on their limitations and have this accessible to all affected by the evaluation with expressed legal rights to receive results.
3. Should protect the anonymity and confidentiality of individual informants. They should provide maximum notice, minimize demands on time, and respect people’s right not to engage. Evaluators must respect people’s right to provide information in confidence, and must ensure that sensitive information cannot be traced to its source. Evaluators are not expected to evaluate individuals, and must balance an evaluation of management functions with this general principle.
4. Sometimes uncover evidence of wrongdoing while conducting evaluations. Such cases must be reported discreetly to the appropriate investigative body. Evaluators should consult with other relevant oversight entities when there is any doubt about if and how issues should be reported.
5. Should be sensitive to beliefs, manners and customs and act with integrity and honesty in their relations with all stakeholders. In line with the UN Universal Declaration of Human Rights, evaluators must be sensitive to and address issues of discrimination and gender equality. They should avoid offending the dignity and self-respect of those persons with whom they come in contact in the course of the evaluation. Knowing that evaluation might negatively affect the interests of some stakeholders, evaluators should conduct the evaluation and communicate its purpose and results in a way that clearly respects the stakeholders’ dignity and self-worth.
6. Are responsible for their performance and their product(s). They are responsible for the clear, accurate and fair written and/or oral presentation of study imitations, findings and recommendations.
7. Should reflect sound accounting procedures and be prudent in using the resources of the evaluation.
