Dear Sophie and Angwi,

So now that there is an agreement between the CO and RB to include the output to the CPD Programme Tree, the CO just go ahead and add it accordingly.

CPD Programme Tree:

- Step 1: Add the output to the relevant CPD Outcome.
- Step 3: Link the relevant project to the new CPD output
- Report on the ROAR.

As mentioned previously make sure to save the correspondence between the two offices on this issue in case of audit.

Dear Mexhide,

The RBM/CST team have reviewed and agreed on the following for the Tanzania CO.

Can you kindly help incorporate this output under outcome 3( National governance is more effective, transparent, accountable and inclusive) of their CPD in the CPS for Tanzania CO. Also see attached IIRF component template

CPD Output	CPD Output Indicator	Baseline (2017)	Milestone (2019)	Target (2020)	Data Sources
------------	----------------------	-----------------	------------------	---------------	--------------

Output 3.6: National capacities strengthened to reduce the likelihood of conflicts including those arising from violent extremism.	3.6.1 number and Proportion of national and sub-national governmental personnel participating in UNDP PVE capacity development who demonstrate improved understanding of PVE approaches	0	75%	95%	Tanzania Police Force, Tanzania Prisons Services, National Counter Terrorism Centre.
	3.6.2 Number of mechanisms/platforms enabled at national and subnational levels for consensus-building around contested priorities for peaceful management of conflict.	0	5	8	Project reports; reports from inter-faith and peace committees & project field offices; surveys by the project.

Kindly let us know if the we need to do anything to further facilitate this process.  
Kind regards,

Dear Angwi,

Thank you for you email, hope all is well in Tanzania.

As regards to your question; CPD outcomes are approved by the Board whilst CPD outputs are indicative. The outputs can be changed but it needs to be justified and in agreement with the Regional Bureau. Therefore, kindly consult with the RBA on the change you wish to do on output level. Additionally, if the change is accepted the correspondence needs to be recorded for audit reviews.

Hope this was helpful,

Best,

**Subject:** New output on Prevention of Violent Extremism to be added into the Tanzania CPD

Dear Results team,

Greetings from Tanzania.

I am requesting the team to add a new output on PVE into the Tanzania CPD. The justification for addition of this output is that we have a project on PVE that has been implementing PVE activities for a while and it requires for its outputs to be reflected into the Tanzania CPD to enable us to report on its results on the 2019 ROAR.

Thank you for your support,

Angwi Mbandi
