E-government development	Creating a unified system of public services	<ul style="list-style-type: none"> <li>• Development of standard databases for the provision of public services, development of infrastructure for the provision of electronic services, the creation of a database of "smart specialization"</li> </ul>	Ministry of Communications and Informatization, State Committee for Science and Technology, NATIONAL CENTER OF ELECTRONIC SERVICES

	Inclusive local government	<ul style="list-style-type: none"> <li>• Electronic participation of citizens in decision-making and territories development planning through a single platform of tools for electronic participation, creation and maintenance of websites of republican government bodies and other state organizations subordinate to the Government, regional executive committees and Minsk city executive committee</li> </ul>	Ministry of Communications and Informatization, Ministry of Economy, Ministry of Justice, House of Representatives of the National Assembly of the Republic of Belarus, NATIONAL CENTER OF ELECTRONIC SERVICES
	The provision of electronic services	<ul style="list-style-type: none"> <li>• Creation of a <i>Single Window</i> within the framework of the O AIS for the provision of administrative procedures to the population online and offline through post offices using an example of a set of administrative procedures</li> </ul>	Ministry of Communications and Informatization, Ministry of Justice, House of Representatives of the National Assembly of the Republic of Belarus, NATIONAL CENTER OF ELECTRONIC SERVICES, BSUIR
	Digital taxation	<ul style="list-style-type: none"> <li>• Creating a favorable tax environment for businesses through the digitalization of the tax system;</li> <li>• Creation of interactive platforms for interaction with taxpayers;</li> <li>• Development of machine learning systems, the introduction of a tax monitoring system as a tool for growing trust between taxpayers and the tax administration</li> </ul>	Ministry of Taxes
	Transport	<ul style="list-style-type: none"> <li>• Development of a unified system of digital transport corridors and a digital trust environment</li> </ul>	Ministry of Transport and Communications, Ministry of Communications and Informatization, State Customs Committee, State Border Committee, RUE NATIONAL CENTER OF ELECTRONIC SERVICES

Healthcare digitalization	Telemedicine and e-Health	<ul style="list-style-type: none"> <li>• Creation of a network of “healthy” cities; raising the awareness of residents of settlements about “healthy” cities;</li> <li>• Creation of a platform to assess the level of "health" of cities and the construction of appropriate ratings;</li> <li>• Promoting the development of digital skills and the use of digital tools among medical personnel in the provision of health services;</li> <li>• The development of the Internet of things in healthcare, including through partnerships with the private sector</li> </ul>	Ministry of Health
Digitalization of Ecology	<b>Renewable energy</b>	<ul style="list-style-type: none"> <li>• Smart renewable energy inventories</li> </ul>	Ministry of Natural Resources and Environmental Protection
<b>National priority according to the concept of NSDS 2035:</b>			
ENVIRONMENTAL SAFETY BASED ON THE TRANSITION TO THE GREEN ECONOMY, RATIONAL PRODUCTION AND CONSUMPTION MODELS			
Climate change (adaptation)	Ozone layer protection	<ul style="list-style-type: none"> <li>• Introduction of new types of refrigerants not previously used on the territory of the Republic of Belarus;</li> <li>• Implementation of standards for the use of natural refrigerants;</li> <li>• Orientation of industry to the use of natural refrigerants (for example, carbon dioxide, propane, ammonia);</li> <li>• Production of natural refrigerants in the Republic of Belarus</li> </ul>	Ministry of Natural Resources and Environmental Protection, Ministry of Industry
Climate change (emission reductions)	Economic market / non-market climate change mechanisms	<ul style="list-style-type: none"> <li>• Building capacity to develop a legislative framework for the arrival of green investments</li> </ul>	The House of Representatives of the National Assembly of the Republic of Belarus, APIMH, Interagency Climate Group
	Energy efficiency	<ul style="list-style-type: none"> <li>• Use of low potential renewable energy sources;</li> </ul>	Department of Energy Efficiency of the State

		<ul style="list-style-type: none"> <li>• Use of sources of wood fuel and other types of biomass;</li> <li>• Development of methodology, technology and determination of the potential for burning solid municipal waste;</li> <li>• Increasing the share of electricity consumption by the end user;</li> <li>• Development of electric transport (development of a network of charges for electric transport, development of electric traction on the railway);</li> <li>• Housing construction using electricity for heating, hot water and cooking;</li> <li>• Construction of electric boiler rooms and conversion of solid fuel boiler houses to electric boiler rooms;</li> <li>• Use of electricity in industry.</li> </ul>	Committee for Standardization, Department of Energy
Biodiversity conservation	Operation of roads, pipelines, power lines, railways	<ul style="list-style-type: none"> <li>• Landing of native species of wild plants in right-of-way and roadside lanes of highways,</li> <li>• Arrangement of transitions for animals;</li> <li>• A set of measures against soil erosion;</li> <li>• Development of a regulatory framework.</li> </ul>	National Academy of Sciences of Belarus, local executive and regulatory authorities
	Fight against invasive alien species of wild plants	<ul style="list-style-type: none"> <li>• Fight against invasive alien species of wild plants using herbicides</li> </ul>	National Academy of Sciences of Belarus, local executive and regulatory authorities
	Economic mechanisms for the conservation of biodiversity	<ul style="list-style-type: none"> <li>• Formation of the <i>Habitat Banking</i> mechanism (a market mechanism where loans from actions with positive results can be acquired in order to offset the debit from environmental damage), the formation of a market for ecosystem services</li> </ul>	National Academy of Sciences of Belarus, Ministry of Natural Resources and Environmental Protection, The House of Representatives of the National Assembly of the Republic of Belarus

		<ul style="list-style-type: none"> <li>Breeding and use in farms and private farmsteads of local genetically and economically valuable breeds of agricultural animals that are on the verge of extinction (for example, black motley breed of pigs, red breed of cattle).</li> </ul>	National Academy of Sciences of Belarus, local executive and regulatory authorities
		<ul style="list-style-type: none"> <li>Breeding of socially significant local breeds of animals that are on the verge of extinction (for example, Polissja horses, Belarusian harness).</li> </ul>	National Academy of Sciences of Belarus, local executive and regulatory authorities
Rational land use and land degradation	Restoration of agricultural (agricultural) lands	<ul style="list-style-type: none"> <li>Development of an action plan to combat land degradation until 2025;</li> <li>Cleansing floodplain meadows;</li> <li>Restoration of meat direction cattle grazing;</li> <li>Waterlogging and development of new waterlogging technologies</li> </ul>	Ministry of Natural Resources and Environmental Protection, State Property Committee Ministry of Agriculture and Food National Academy of Sciences of Belarus, local executive and regulatory authorities
		<ul style="list-style-type: none"> <li>Optimization of land use (reduction of environmental intensity);</li> <li>Development of land valuation methodology;</li> <li>Improving the tax rate for agricultural land</li> </ul>	State Property Committee Ministry of Natural Resources and Environmental Protection, Ministry of Agriculture and Food National Academy of Sciences of Belarus, Ministry of Taxes Ministry of Economics, local executive and regulatory authorities
Water conservation	Restoration of water bodies (eutrophication)	<ul style="list-style-type: none"> <li>Coastal restoration and maintenance of spawning grounds;</li> <li>Prevention of the entry of contaminated water into a body of water (in particular, from agricultural lands)</li> </ul>	Local executive and regulatory authorities, Ministry of Natural Resources and Environmental Protection,

			Ministry of Agriculture and Food National Academy of Sciences of Belarus	
	Water management	<ul style="list-style-type: none"> <li>• Improvement of legislation in the field of river basin management (including action plans to achieve environmental goals);</li> <li>• Development of incentives to attract private business;</li> <li>• Development of irrigated agriculture;</li> <li>• Water treatment</li> </ul>	Ministry of Natural Resources and Environmental Protection, Ministry of Agriculture and Food National Academy of Sciences of Belarus, Ministry of Economics, CRICUWR (Central Research Institute of complex use of water resources), local executive and administrative bodies	
Chemicals Efficiency	Management	Chemicals management	<ul style="list-style-type: none"> <li>• Monitoring and control of persistent organic pollutants in the environment</li> </ul>	Ministry of Natural Resources and Environmental Protection, Institution <i>Center for Environmental Solutions</i> , environmental public organizations
		Pharmaceutical substances in the environment	<ul style="list-style-type: none"> <li>• Monitoring and control of pharmaceutical substances in the environment;</li> </ul>	Ministry of Natural Resources and Environmental Protection, Institution <i>Center for Environmental Solutions</i> , environmental public organizations
Environmental education		Environmental education	<ul style="list-style-type: none"> <li>• Development of environmental education and public awareness,</li> <li>• Environmental education of decision makers</li> </ul>	Ministry of Natural Resources and Environmental Protection,

			Institution <i>Center for Environmental Solutions</i> , environmental public organizations
Rational consumption and production patterns	Use of non-recyclable disposable plastic	<ul style="list-style-type: none"> <li>• Monitoring the use of plastic;</li> <li>• Research and analytical control of emissions of harmful substances into the environment;</li> <li>• Development of a biodegradable plastic collection system;</li> <li>• Improvement of the waste collection and sorting system;</li> <li>• Creation of regional waste collection complexes with a disposal site.</li> </ul>	Ministry of Natural Resources and Environmental Protection, Ministry of Housing and Communal Services, Ministry of Antimonopoly Regulation and Trade, Ministry of Economy, local executive and administrative bodies, State institution <i>Operator of secondary material resources</i> , institution <i>Center of environmental decisions</i> , public organizations of an environmental orientation
Environmental management	Environmental protection measures and Environmental Programmes Financing	<ul style="list-style-type: none"> <li>• National financing mechanisms improving, a bank to finance environmental activities and a Water Fund creating;</li> <li>• Development in the field of financing mechanisms, the circular economy, green procurement.</li> </ul>	Ministry of Natural Resources and Environmental Protection, Ministry of Economy, Ministry of Finance
	Monitoring	<ul style="list-style-type: none"> <li>• Implementation of a territorial monitoring system;</li> <li>• Implementation of the standard in the field of environmental management EMAS;</li> <li>• Development of economic incentive measures to introduce a green economy in production</li> </ul>	Ministry of Natural Resources and Environmental Protection
Public participation	Mechanisms, practices, enforcement practice of public participation	<ul style="list-style-type: none"> <li>• Raising awareness and timely provision of public with information;</li> <li>• Creation of environmental discussion centers (clubs) in the regions;</li> </ul>	Ministry of Natural Resources and Environmental Protection, Ministry of Education,

		<ul style="list-style-type: none"> <li>• Ensuring public access to justice;</li> <li>• Improving mechanisms for public participation;</li> <li>• Conducting social surveys to determine public attitudes towards environmental issues;</li> <li>• Improving mechanisms for the dissemination of environmental information, including informing of enterprises and other organizations;</li> <li>• Involvement of religious organizations in environmental advocacy issues</li> </ul>	Ministry of Justice local executive and administrative bodies, higher educational institutions, public organizations
Regions affected by the Chernobyl accident	Polessky State Radiation and Ecological Reserve	<ul style="list-style-type: none"> <li>• Creation of a research laboratory in the Polessky State Radiation-Ecological Reserve</li> </ul>	Ministry of Emergency Situations
Genetic Resources	Use of genetic knowledge	<ul style="list-style-type: none"> <li>• Use of genetic knowledge in a traditional nutritional system;</li> <li>• Preservation of traditional knowledge as an intangible cultural heritage</li> </ul>	Local executive and regulatory authorities National Academy of Sciences of Belarus, Ministry of Natural Resources and Environmental Protection, Ministry of Health, Ministry of Culture
<b>INTERNATIONAL COOPERATION AND IMPLEMENTATION OF SUSTAINABLE DEVELOPMENT GOALS IN THE REPUBLIC OF BELARUS</b>			
Legislation	<p>Improving of rulemaking</p> <p>Creation of new mechanisms for the participation of civil society in the implementation of rulemaking</p>	<ul style="list-style-type: none"> <li>• Optimization of the legislative process</li> </ul>	Ministry of Justice
The international cooperation	A qualitatively new approach to understanding the importance of international cooperation (often seen as auxiliary)	<ul style="list-style-type: none"> <li>• Raising public officials' awareness of the importance of international cooperation</li> </ul>	Ministry of Education, Academy of Public Administration under the aegis of the President of the Republic of Belarus
Education and exchange of experience with the participation of the	Formation of free business platforms for the exchange	<ul style="list-style-type: none"> <li>• Training activities (especially at the local level) related to the development of international</li> </ul>	Ministry of Economics, Academy of Public Administration under the

population in development programs and projects	of experience, discussion of key issues	technical assistance projects, participation in grant competitions <ul style="list-style-type: none"> <li>• Simplified support procedures</li> </ul>	aegis of the President of the Republic of Belarus
SDG financing	Budgeting for the implementation of the SDGs	<ul style="list-style-type: none"> <li>• Attracting experts to develop SDG budgeting methodologies</li> </ul>	Ministry of Economy, Ministry of Finance
Comprehensive SDG implementation support	Consolidation of district activities to achieve the SDGs in thematic areas	<ul style="list-style-type: none"> <li>• Consolidation of 7 southeastern regions of the Mogilev and Gomel regions affected by the Chernobyl accident, and their comprehensive support</li> </ul>	Ministry of Emergency Situations, local executive and administrative bodies, republican government bodies
Integrated tourism development	Raising the awareness of tourists of the Polesky State Radiation and Ecological Reserve, specially protected natural areas about safe and environmentally friendly tourism	<ul style="list-style-type: none"> <li>• Creation of a training center for safe life on the basis of the Polesky Reserve and other conservation areas</li> <li>• Creation of the necessary tourist infrastructure</li> </ul>	Ministry of Sport and Tourism, Ministry of Emergency Situations, Ministry of Natural Resources and Environmental Protection, local executive and regulatory authorities
Traditional knowledge associated with genetic resources	Preservation of traditional knowledge, ensuring access to it, creation of appropriate mechanisms	<ul style="list-style-type: none"> <li>• Collection and transfer of traditional knowledge</li> <li>• Creation of thematic associations</li> </ul>	National Academy of Sciences of Belarus, Ministry of Culture, Ministry of Education, local executive and administrative bodies, public organizations
Active longevity to ensure the country's economic growth	Improving the quality of life of the elderly	<ul style="list-style-type: none"> <li>• Genetic, medical, social, educational components</li> </ul>	Ministry of Labor and Social Protection, Ministry of Health, Ministry of Education, Ministry of Economy, National Academy of Sciences of Belarus
Extension of integration processes	Strengthening national capacities while expanding integration processes	<ul style="list-style-type: none"> <li>• Improving knowledge and skills for integration as part of joining international organizations (work with international documents, including in a foreign language)</li> </ul>	Ministry of Economy, Ministry of Education, Ministry of Foreign Affairs, other republican government bodies,

			Academy of Public Administration under the aegis of the President of the Republic of Belarus
Comprehensive SDG implementation support	Discussion platform, pilot financing; Improving expert support between countries through UNDP; Increasing business interest in participating in development programs	<ul style="list-style-type: none"> <li>• Establishment of an SDG laboratory</li> <li>• Creation of resource centers for training the population on SDG implementation methodologies</li> </ul>	<p>Partner Group for Sustainable Development, including the local Fund <i>Dobra</i></p> <p>Ministry of Education, educational institutions, public organizations</p>
SDG best practices	Exchange of successful experiences of Belarus with foreign countries to increase global awareness of Belarus, to adequately assess the situation in Belarus	<ul style="list-style-type: none"> <li>• Selection (by region, thematically) of best practices in the field of development and their presentation on international platform</li> </ul>	<p>Sustainable Development Council</p> <p>Regional Sustainable Development Groups, Parliamentary Group on Sustainable Development, Partnership Group on Sustainable Development</p>
Overcoming of organizational barriers to international technical assistance	Registration of international technical assistance projects	<ul style="list-style-type: none"> <li>• Improving the registration procedure for international technical assistance projects</li> </ul>	Ministry of Economics
Firefighting	Intercountry interaction, exchange of experience between voluntary fire societies, young rescue firefighters	<ul style="list-style-type: none"> <li>• Creation of platforms for experience exchange</li> </ul>	Ministry of Emergency Situations
Volunteer movement	The development of the volunteer movement among all categories of the population	<ul style="list-style-type: none"> <li>• Popularization of the volunteer movement, training, improving the skills of volunteers</li> <li>• Creation of a volunteering platform</li> <li>• Legislative support</li> <li>• Corporate volunteering</li> </ul>	Ministry of Education, Ministry of Sport and Tourism, Ministry of Labor and Social Protection

Border Security	Combating drug trafficking at the state border	<ul style="list-style-type: none"> <li>• Strengthening the capacity of national partners</li> </ul>	State Border Committee
Border security in the Chernobyl zone	Overcoming illegal entry of people into the territory of the Polesie State Radiation-Ecological Reserve, ensuring the security of the border between Belarus and Ukraine	<ul style="list-style-type: none"> <li>• Development of infrastructure and communications through the creation of the <i>Green Outpost</i></li> <li>• Development of a psychological service for border guards</li> </ul>	State Border Committee
Healthcare, health promotion and creativity, health education	Promotion of a healthy lifestyle among young people (physical activity, healthy eating, stress, overcoming alcohol and tobacco addiction)	<ul style="list-style-type: none"> <li>• Study and implementation of international practices</li> </ul>	Ministry of Health, Ministry of Education, Ministry of Sport and Tourism, Ministry of Labor, Ministry of Internal Affairs, Ministry of Antimonopoly Regulation and Trade
SDG monitoring	Strengthening national statistical capacity to monitor the implementation of the SDGs	<ul style="list-style-type: none"> <li>• Introduction of new technologies for monitoring the SDGs, development of a national platform for monitoring the SDGs to the regional level, improving methods for monitoring the SDGs</li> </ul>	National Statistical Committee, other republican government bodies, local executive and administrative bodies
Business involvement through the dissemination of international practices		<ul style="list-style-type: none"> <li>• Transfer of international practices and their implementation in the Republic of Belarus</li> </ul>	Sustainable Development Partner Group, including the Fund <i>Dobra</i>
