Total cost: US\$ 465,000

## Revised Multiyear Evaluation Plan 2018-2022

**Explanatory Note:** Revised evaluation plan contains 17 evaluations in total which is a combination of *CPD, Outcome, Thematic, and Project evaluations*. (1) CPD Midterm evaluation - 1; (2) Outcome evaluation - 2; (3) Thematic: Gender evaluation - 1; (4) Terminal Project evaluation - 9; (5) Mid-term Project evaluation - 4.

Justification of changes in Evaluation plan from the original ones are as follows: Firstly, as per UNDP evaluation guideline *at least 20-30% of program and project portfolio should be subjected to evaluation* so evaluations have been added to ERC as per approved new projects evaluation plan. In year 2018, total of 5 new projects were formulated and approved (SERIP, SARL, GRSP, LEAP, R2R) whose evaluations were added in Evaluation Plan 2018-2022. Secondly, projects that have pre-requisites by partners for evaluations like *GEF funded projects, Adaptation funds projects and Joint programmes* like UNREDD are also added in the evaluation plan. These are eight mandatory evaluations carried over from previous program cycle. As these evaluations were already entered into the ERC as part of the new plan for approval, this offline revised plan is prepared to explain the justifications for the changes introduced to the original evaluation plan.

### UNDP Myanmar Country Office Evaluation Plan Detail (2018-2022)
