

ANNEX B. FULLY-COSTED EVALUATION PLAN – CONGO CPD 2020 – 2024 *evaluations*

Ce plan d'évaluation contient une combinaison appropriée d'évaluations de programmes et de projets, y compris un accord de partage des coûts ou un protocole de partenariat, tel que celui du Fonds pour l'environnement mondial, selon lequel les évaluations sont obligatoires. Aussi, toutes les évaluations sont entièrement chiffrées et se concentreront sur la détermination de la pertinence, de l'impact, de l'efficacité, de l'efficience et de la durabilité des travaux du PNUD afin de procéder à des ajustements et d'améliorer les contributions au développement.

En outre, les évaluations seront conduites de manière à promouvoir l'appropriation nationale et à accroître la participation des homologues nationaux, y compris les bénéficiaires, par le biais d'approches inclusives et participatives, et conformément aux principes d'efficacité de l'aide, en particulier l'appropriation nationale et la responsabilité *mutuelle*.
